HO' there is nothing in this Kingdom which should be so carefully Studied and universally Known, as the Duties payable upon Export and Import, with the respective Laws and Regulations in Trade, yet by reason of their Variety, different Commencements, Continuances, &c. they are become Intricate, and by the Generality of Traders very little understood.

To set these Matters in a clear Light for the Use and Benefit both of the Officers of the Customs and Traders, is the Design and Occasion of the following Sheets.

This Preface is chiefly to acquaint the Reader,

First, That this Treatise was at the Press while the Parliament was Sitting, and as it was thought some Alterations would have been made in the Duties of French Goods and Unrated East-India Goods, they were both reserv'd for the Appendix.

Secondly, That the Fourth Partition is so contriv'd as to be a General Index both

P R E F A C E.

to the Laws, and to the Principal Matters contain'd in the Book, wherein Endeavours have been used to place and express every Thing in as plain, methodical, and succinct a Manner, as the Nature of the Subject would allow. And

Thirdly, To pray Reference to the Appendix for Computing the Duties on Books, Paper, Linen Chequered, Striped, Printed, Stained, or Dyed; Maps, Paper, Prints, Sope, Starch, and Tobacco: Where likewise are noted any other Alterations made by this present Parliament, for rendring this a Complete System of the Customs to the End of the last Session.

I N T R O.

INTRODUCTION.

THE great Difficulty that attends the Knowledge of the Customs, especially the Computation of the several Duties payable upon Importation or Exportation, arises chiefly from the many Branches of that Revenue, which are all to be kept separate and distinct, for the Uses and Purposes to which they are respectively applicable, from the Multiplicity of Statutes relative to the same, and from the frequent Alterations by subsequent Additional or Explanatory Acts, or by Repealing, and sometimes again Reviving Clauses in several of them, according to the Exigencies or Emergencies of the Nation, or as they were found to be Good or Bad in their Consequences.

Hence it happens, that the Laws relating to the Customs, Navigation, and Trade (which should be as generally understood, as their concern is almost Universal) are thoroughly known to very few, so that the fair Trader is too often a Stranger to the Encouragements with which he stands Privileg'd, and what was justly design'd a Punishment to wilful Transgressors, falls sometimes to the share of the Innocent.

To avoid therefore the Confusion that (in my humble Opinion) would attend a Narrative of all the Laws, which have been made relating to the Customs, and when and how Repealed or Altered, and to render this Essay both Portable and Perfect, I neither run back into an Inquiry what Laws were peculiar to *England*, or *Scotland* consider'd abstractedly before the Two Kingdoms were United (because by that Treaty the Laws of *England*, with respect to the Customs, took place throughout the whole United Kingdom) nor touch upon such as are Expir'd, Repeal'd, or Alter'd (further than by way of Reference in enumerating the successive Continuations of the several Duties, &c.) but consider such only as are in Force, and that too in such Order, as to avoid Repetitions as much as may be, and that every thing may be readily turn'd to under the General Head to which it has the most native relation.

The

INTRODUCTION.

The Method then whereby 'tis propos'd to make you best acquainted with the Customs, (by which is meant the several Duties payable to the Crown upon Goods Imported, Exported, or Brought Coastwise) shall be,

1. By Treating of each Branch of that Revenue distinctly and severally, their respective Continuations, Approbations, and Regulations, with proper Remarks and Examples upon each.

2. By shewing the Method an Manner of Computation in general, both within Doors, and at the Waterside, and assisting you with variety of useful Directions, Rules, and Schemes for your more Expeditious and Certain Operations.

3. By furnishing you with a Complete Book of Rates, wherein you have not only the Rates of all Merchandizes, as settled by 12 Car. 2. c. 4, &c. Alphabetically dispos'd, but likewise the Total Amount of the Net Duties to be Paid or Secured, both by Natives and Foreigners at Importation, and the Sums to be Drawn back respectively on Exportation in Time upon all Goods whatsoever, Rated or Unrated, exactly and carefully Calculated to the Twentieth Part of a Penny; with References to a Table at the End thereof, directing respectively to the particular Branches Composing those Sums: Also the Rates and Net Duties payable Outwards and Coastwise.

4. By giving you a List of all Goods Prohibited to be Imported, and Exported, and their Penalties, with an Abstract of the Laws in Force relating to the Customs, Navigation, and Trade, to the End of the First Session of Parliament, *Anno Regine* 12 & 13. dispos'd under proper Heads in the order of the Alphabet, and a Table of Fees, and of the Lawful Ports, Members, and Creeks in *Great Britain*.

By 6 *A. c. 11. §. 6.* the one half of the Customs is appropriated for the payment of *l. 1,280,000* — borrowed for the Service of the Year, 1708. and by 7 *A. c. 7. §. 33.* the other half (with other Duties in that Act enumerated) is made a General Security to the Bank of England, for Circulating Exchequer Bills, and Payment of the Interest with 3 *per Cent. per Annum*, and other Uses therein mentioned.

As to the Uses and Purposes to which the Customs, or any other Branch of the Revenue, stood appropriated by former Acts, I refer to the Acts themselves, and for Brevity take Notice of the last Appropriations only.

For the better Collecting and Levying the Customs (and other Duties subject to the same Regulations) the following Acts are, by the said 7 *A. c. 3.* with Reference to 5 *A. c. 27.* made perpetual.

Act to Prevent Frauds and Concealments, &c. — 12 *C. 2. Cap. 19.*

Act for Preventing Frauds and Abuses, &c. — 13 & 14 *C. 2.* — 11.

Act for Lessening the Duties upon Tin, &c. — 8 & 9 *W. 3.* — 34.

Act for Encreasing the Duty upon Lustrings, &c. 9 & 10 *W. 3.* — 30.

There are likewise several other relative Acts, viz.

Act of Navigation — 12 *C. 2.* — 18.

Act against Importing Wooll-Cards and Wire — 13 & 14 *C. 2.* — 19.

Act for Encouragement of Trade — 15 *C. 2.* — 7.

Act against Importing Foreign Cattle and Fish — 18 *C. 2.* — 2.

Additional Act against the Importation of Cattle — 20 *C. 2.* — 7.

Act for Preventing Dangers from Popish Recusants — 25 *C. 2.* — 2.

Act against Importing Cattle from Ireland — 32 *C. 2.* — 2.

Act against Importing Gunpowder, &c. without } 1 *J. 2.* — 8.

Act to Encourage Building Ships, 1 *J. 2. c. 18.* And several other Acts.

Under the Title of Customs, otherwise called the Subsidy of Tonnage and Poundage, continued as above, are comprehended the following Duties, which I shall handle severally, because they are returned separately by the Collectors.

Old Subsidy, or Subsidy Inwards.

Petty-Customs.

Additional Duty on Wines, &c.

Composition on Petty-Seizures.

Subsidy Outwards, and Mediterranean-Duty of 1 per Cent.

But Note, That by 5 A. c. 27. the Customs were from the 1st of August 1710. continued upon Goods Imported only; so that the Duty which arose from Subsidy Outwards, and the Mediterranean Duty of 1 per Cent. ceased from that time till 8 March, 1710, when by 9 A. c. 6. it was revived, and made applicable, with the Additional Duty on Coals and Candles, to different Uses from the Customs, and therefore falls properly to be considered along with that Duty (Branch N^o 20.) to which I refer.

Old Subsidy.

THis Duty is sometimes called Subsidy Inwards, and frequently the Subsidy of Tonnage and Poundage.

Tonnage is a Duty payable to the Crown upon all (a) Wines Imported, except (b) Prizage-Wines, and is payable in Ready Money without any Discount. But by the 8th Rule in the Book of Rates, abstracted under the word *Wine*, Part. IV, if the Merchant choose to enter his Wines unfilled, that is, to pay Duty for the Casks as full, without filling them up, he has an Allowance of 12 per Cent. for Leakage.

(c) Perry, Rape of Grapes, Syder, Syder Eager, and Vinegar, are likewise subject to the same Regulation, with respect to this Duty and Petty-Customs only, (d) except Vinegar, which is chargeable with the old Impost as well as Wine.

The Old Subsidy on Wine is thus wrought :

Suppose 1 Ton of *Spanish* Wine unfilled Imported into the Out-Ports by a *British* Merchant in a *British* built Ship.

Turn to the Act of *Tonnage and Poundage*, (e) or to the Wine-Table, Part II. and there you will see such Wine charged at *l. 1. 10.* — the But filled up, and consequently the Ton at ——— 3. — —
12 per Cent. for Leakage ——— 7. 2 $\frac{1}{4}$

Net Duty ——— *l. 2. 12. 9 $\frac{3}{4}$*

N.B. Where in the Acts relating to the Customs, &c. made in England, before the Two Kingdoms were United, the words *England* or *English* are mentioned, they are here called *Britain* and *British*. That in the several Examples or Computations here made use of, I seldom descend below a Farthing, being the least piece of Coin current in

(e) 12 Car. 2. c. 4. §. 1.

England, *except in the Third Partition, where the Net Duties to be paid or drawn back, are Calculated to the Twentieth part of a Penny.* Poundage (f) is a Duty of 5. *per Cent.* on all Goods Imported (except those lyable to the Tonnage-Duty) or 12 *d.* for every Pound Value, according to the respective Rates Charged on them in the Column of Rates, in the Third Partition, where the Goods are Rated: or if they are not Rated, according to their Value and Price, to be ascertained by the Oath of the Merchant-Importer, (g) except *East India* Goods, which being under special Regulations and Priviledges, with respect to this and all other Duties, I shall speak of them Fully under the Second Partition, and not before.

It is payable in Ready Money, and has a Discount of 5. *per Cent.* except upon the following Particulars, *Viz.*

Barley hull'd, or } in Drugs (b) —————	} On which there is no Discount.
Pearl Barley —————	
Corn when the Subsidy is taken by } the Act of Tillage (i) —————	
} when the Subsidy is taken by } the Act of Trade (k) —————	

The Poundage Duty is to be Wrought according to these Two Examples:

15 lb <i>Italian</i> wrought Silk in a <i>British</i> Ship — <i>l.</i> 1. 5. — 5 <i>per Cent.</i> Discount — 1. 3. ————— Net Subsidy — <i>l.</i> 1. 3. 9.	1200 lb <i>Tobacco British</i> Plantation — <i>l.</i> 5. — — 5 <i>per Cent.</i> discount — 5. — ————— Net Subsidy — <i>l.</i> 4. 15. —
---	--

For the Example of Silk turn to the Letter S. in the Third Partition, and there you will find Wrought Silk of the Manufacture of *Italy*, Imported thence in *British* Ships, rated in the first Column at *l.* 1. 13. 4. the Pound Weight (being the Value of the Silk, not the Duty) whereof the 20th part (or 5 *per Cent.* or 12 *d.* in the Pound, which are all the same) is *l.* — 1. 8. *per* Pound, and consequently for 15 lb *l.* 1. 5. — as above, out of which taking 5 *per Cent.* for prompt Payment, there remains Net *l.* 1. 3. 9.

Tobacco is wrought after the same manner, by turning to the Letter T. where you will find it charg'd at *l.* — 1. 8. *per* Pound, being the Value likewise, whereof the 20th part is 1 *d.* *per* Pound, (being the Gross Old Subsidy) and consequently for 1200 lb *l.* 5. — — from which deducting 5 *per Cent.* for ready Money remains Net *l.* 4. 15. —

And so for all other Poundage Goods whatsoever.

Note, That Ships taken as Prize, and regularly Condemned in the Court of Admiralty, pay 5 *per Cent.* ad Valorem for this Duty, and according to Practice, are liable to no other Duty whatsoever.

Tho' the Rates of all Goods, according to which the Old Subsidy is to be now taken, as above, be exactly set down in the Third Part. of this Book, yet in regard several of them differ now from what they were, when first granted, (l) and that the New Subsidy, and other

Impositions, or New Duties, have a reference to the Old Rates, not the present ; here follows a List of them :

Barley hull'd, and Pearl Barley, was formerly rated at *l. 1* — — but by 22 *Car. 2. c. 13. §. 3.* was altered to *l. 5* — —

Diamonds, &c. was discharged, 4 & 5 *W. & M. c. 5. §. 2.* (by the Words, *In lieu of all Impositions, &c.*) and they stood then Chargeable with the Impost 169 $\frac{1}{2}$ only ; but the New Subsidy 9 & 10 *W. 3. c. 23. §. 4.* being posterior to that, and charging all Goods with 12 *d.* in the Pound, as they stood rated in the Old Book of Rates ; Diamonds, &c. being in that Book rated at *l. — 10 —* for every *l. 100 —* Value, became liable to the New Subsidy accordingly.

Drugs was formerly rated $\frac{1}{3}$ only of the Rates in the Third Partition, but by the 8 & 9 *W. 3. c. 34. §. 2.* they were charged with treble the Value, and stand so rated now in the Third Partition ; except Dying Drugs, §. 3. whereof the Rates continue as at first.

Ginger of the *West-Indies* in *Grocery-Wares*, was formerly rated at 16 *d.* per Pound ; but by 9 & 10 *W. 3. c. 23. §. 11.* is to pay 12 *d.* the Hundred weight for each Subsidy.

Oyl voc. Train Oyl, of Foreign Fishing, was formerly rated at *l. 50 —* per Ton, but by 25 *Car. 2. c. 7. §. 1.* it was advanced as it now stands rated in Part. III.

Perry was formerly *ad Valorem* — —

Rape of Grapes was formerly Rated at 3 *l. per Ton* — —

Syder and Syder Cager } was formerly rated at 4 *l. per Ton* — —

Winegar was formerly Rated at 5 *l. per Ton* — —

but by 13 & 14 *Car. 2. c. 11. §. 25.* brought under the Regulation of Tonnage.

Whalefins of Foreign Fishing was formerly Rated at 100 *l.* the Ton, but advanced to what you now find in the Column of Rates in the Third Partition, by 25 *Car. 2. c. 7. §. 1.*

Corn at certain Prices, was by the Act of Tillage, 22 *Car. 2. c. 13. §. 1.* altered, as follows, viz.

Petty-Custom,

Otherwise called Aliens Duty, and sometimes Navigation Duty, is a Duty payable Inwards by Strangers (a) on all Goods; and by *British* (b) on certain enumerated Goods, when Imported in Foreign Bottoms, over and above what is payable for the same Goods, if they were Imported by Subjects in *British* built Ships, and consists likewise of Tonnage and Poundage: For the Aliens Duty, payable on Goods Exported, is now taken off. *Vide Aliens, Part. IV.*

Tonnage is a Duty payable (c) on all Wines, except (d) Prizage-Wines, and on (e) Vinegar, Syder, Syder Eager, Rape of Grapes, and Perry, Imported as above, and is 30 s. per Ton filled, or *l.* 1. 6. 4 $\frac{1}{2}$. unfilled, (f) (12 per Cent. being allowed for Leakage on this Duty also) payable in Ready Money without any Discount.

Poundage (g) is a full Fourth part of the Old Subsidy before the 5 per Cent. be taken off, or Three pence in the Pound upon all Goods Imported by Strangers (except Wines, &c. as above) according to the Rates respectively charged in the first Column of the Third Partition, or any other Duty payable by *Charta Mercatoria*.

It is likewise payable upon (b) the following Goods, when Imported in a foreign Ship, though they actually belong to *British*. Viz.

Composition on Petty Seizures.

ALL Goods Seiz'd by the Officers of the Customs are to be Prosecuted to Condemnation in the Court of Exchequer, and the QUEEN'S Moiety or Share paid in to the proper Officer (except in the Case of Perishable Goods, 13 & 14 Car. 2. c. 11. §. 30.) before any Writ of Delivery be granted, in which case there is always a Saving for the Officers part; but when the Seizure is so small, that the Custom thereof does not exceed 40 s. the Commissioners have a Power in their Patent to Compound it; The QUEEN'S Moiety whereof is in that case paid in to the Collector of the Port where the Goods lie, and by him Accounted for in his Abstracts and other Accounts, by the name of Composition on Petty Seizures. And tho' (properly speaking) this be no Duty, yet in regard it is comprehended under the Title of Customs, and Accounted for as part of that Branch, both by the Collectors, and at the Exchequer, I hope it will not be thought improper to say so much of it by way of Information.

Out

Out of the Branch of Customs only.

COn Debentures, and Portage Bills, are to be paid; and generally all Salaries and Incident Charges are paid out of the same, tho' several other Branches of the Revenue are likewise subjected to their proportion of the Charge of Management.

By Portage is meant an Allowance given by the Commissioners of the Customs, pursuant to their Patent, to the Master of a Ship Inwards, by way of a Bounty or Encouragement for making a true Report of his Ship and Cargo, and otherwise demeaning himself according to Law or Custom, and is $\frac{1}{2}$, or *l.*—6. 8. *per Cent.* on Wines, and $\frac{1}{2}$, or *l.*—10. — *per Cent.* on all other Goods, upon the amount of the Old Subsidy and Additional Duty paid or secured upon each Ship (Damages and over Entries always first deducted) to be Certified by the proper Officers.

from 31 January, 1699. ———— }

1 A. c. 7. §. 2. from 9 March, 1701. ———— during the Queens Life.

By the said 1 A. c. 7. this Duty is granted for the Support of Her Majesties Household, and of the Honour and Dignity of the Crown, to be Levied, Rais'd, and Collected by the same Rules, Laws, and Methods, with the Customs, to which I refer.

It is otherwise called the further Subsidy upon Goods Imported, and consists likewise of Tonnage and Poundage.

Tonnage is a Duty payable (a) in Ready Money upon Wines Imported, and is (b) the very same with the Old Subsidy, and under the same Regulations (c) of 12 *per Cent.* for Leakage.

But Note, That tho' Prizage Wine is Exempted from the (d) Old Subsidy, it is chargeable with the (e) New; and Perry, Rape of Grapes, Syder, Syder Eager, and Vinegar, which are subject to the Regulations of Tonnage, with respect to the Old Subsidy, and the Duties Calculated Net accordingly, are under the Regulation of (f) Poundage Goods for this Duty, which is to be Levied according to the Rates with which they stood charg'd formerly by the Old Book of Rates, as in Page (6).

There is likewise 30 Shillings *per* Ton payable for this Duty upon all Wines Imported by Aliens, or by British in Foreign Bottoms, over and above what is payable by British in British Built Ships, and Answers to Petty-Customs or Aliens-Duty, with respect to the Customs.

By 8 A. c. 13. §. 8. the Money to arise by the Continuation of this Duty, from 1 August, 1716 to 1 August, 1720. was appropriated to the payment of £. 1,296,552. 9. 11 $\frac{1}{4}$ then borrowed for the Service of the War, &c. but by 9 A. c. 21. §. 21. that Sum is included in the Publick Debts in that Act enumerated, amounting in all to the Sum of

of 1. 8,971,325. — for Security whereof and of 1. 500,000. — at that time to be rais'd for the Service of the Year 1711. with Interest, this Branch of the Revenue (with others in that Act mention'd) is from 31 July, 1720. for ever, made a general Fund, (a) and is to be Levied, and Collected by the same ways and means, and under the same penalties with the Customs, or any other Act then in force.

It is (b) 1. 8. — per Ton on all Vinegar and French Wine, and 1. 12. — per Ton on all other Wines, (c) and may be Bonded at $\frac{1}{3}$ Months from the Date of the Obligation, (that is to say at 3 gales or terms of Payment, whereof the First to be at the end of 3 Months, the Second at 6, and the Third at 9 Months) in which Obligation Three Persons are always to be Bound.

If the Merchant Enter his Wines unfilled, he is allowed (d) 12 per Cent. for Leakage, (e) and if he make Oath it is Imported for Sale, and not for Private use, or Retailing, he has a further Allowance of 3 per Cent. and if the Duty be paid in Ready Money, there is likewise a Discount given of 10 per Cent. per Annum, which for 12 Months is 5 per Cent. unless the Wines belong to Vintners, or Retailers, who are obliged to pay Ready Money, without the benefit of any Discount or Abatement whatsoever.

To work for this Duty, take the following Example :

9—A	21.—1.	Thence	for—ever.

Note, The Asterisk denotes Sess. 2.

This Branch of the Revenue has from time to time been Continued, and appropriated to the same uses with the Impost on Wines and Vinegar; particularly by 8 & 9 A. which see:

By 1 7. 2. c. 4. §. 1. there was a Duty granted on Sugars, as well as Tobacco, but by 2 W. & M. Sess. 2. c. 5. §. 3. the Duty on Tobacco only was continued, and by 7 & 8. W. 3. c. 10. §. 3, 5. subjected to a different Regulation.

It is 3 d. per Pound weight upon Tobacco of the *British* Plantations, and 6 d. per Pound on all other Tobacco Imported, (a) and may be Bonded payable at 18 Months from the time of Importation.

If the Merchant pay down Ready Money, or clear his Bond, he has a Discount allowed him, as follows, *Viz.*

If within 3 Months from the date of his Entry	10	} per Cent.
If after 3 Months, and within 6 Months	8	
If after 6 Months, and within 9	6	
If after 9 Months, and within 12	4	
If after 12 Months, and within 15	2	
If after 15 Months	Nothing.	

Besides which Discounts, the Merchant has a further Allowance of 8 per Cent. in Consideration of Waste and Shrinkage in the Cellars, for so much as he pays Duty for to be Consumed in the Kingdom, whether such Payment be at the time of Entry, or clearing off his Bond.

Example.

1200 lb	Tobacco, <i>British</i> Plantation	l. 15. —
96	8 per Cent. for Waste	1. 4. —
1104		13. 16. —
1103	10 per Cent. Prompt payment	1. 7. 7

993²/₃ Remains— at 3. d. per Pound is — Net Impost—l. 12. 8. 5

By this Example you see how to work by Money, or by Pounds of Tobacco; but the latter is by much the more expeditious of the two

(a) 7 & 8 W. 3. c. 10. §. 5.

If the Duty of the above Tobacco were to be secured, the Bond must be taken for **l. 15.** — and the Discounts allow'd upon clearing off the Bond, for the Quantity to be consum'd in the Country only.

Beside the Discounts aforementioned, (b) there is an Allowance of **4 per Cent.** given to the Merchant Exporter upon Shipping off his Tobacco; in Consideration of Waste that way, which is to be struck off only from the Entry, and not to be paid where the whole Quantity entred Inwards happens to be Exported, for that shews plainly he does not want that Allowance; therefore, in order to save the **4 per Cent.** 'tis the Practice among Merchants, to compute what the said Allowance comes to upon the Quantity entred Inwards, where the whole is to be Exported (Damages and Over-Entries first taken off) which being Subtracted from the said Quantity, for which Duty was paid or secured Inwards, shews the Quantity to be entred for Exportation; for Example:

Suppose the Impost secured Inwards for	20000.
Whereof allow'd then for Damages and Over-Entries	500.
Duty was paid therefore only for	19500.
4 per Cent. on this Quantity	780.

Remains to be entred for Exportation — 18720.

In this case, the Merchant having obtain'd regular Certificates for his Damages, Over-Entries, and Discounts of **4 per Cent.** he gets the same Endors'd towards the Discharge of his Bond (for the Impost is generally Bonded) which, with his Debenture for the Tobacco Exported, clears off his Bond.

But when only a part of the Cargo is Exported, and part design'd to be consum'd in the Kingdom, the Merchant in that case having got Credit for his Damages and Over-Entries, his Debenture or Debentures, and **4 per Cent.** upon the Quantity Exported, pays the Remainder of his Bond in Ready Money, and has a Discount according to the time of Payment; the Method of working whereof, either by Pounds of Tobacco, or Money, is fully illustrated by the following Examples.

it		l.	s.	d.
10000	Tobacco, Brit. Plant. — Impost Bonded —	125.	—	—
400	Damages and Over-Entries allow'd Inwards —	5.	—	—
9600	Net, for which only Impost remains to be paid }	120.	—	—
4	Inwards —			
5200	5000 — Exported by Debentures — l. 62. 10. — }	65.	—	—
16	200 — Waste on ditto at 4 per Cent. 2. 10. — }			
7	4400 — Remains to be consum'd in Britain —	55.	—	—
8	352 — 8 per Cent. for Waste in the Cellars —	4.	8.	—

(b) 7 & 8 W. 3. c. 10. § 5.

lb		l.	s.	d.

3643 $\frac{1}{4}$	{ Balance, for which Impost to be paid down at 3 d. per Pound }	45.	10.	9 $\frac{1}{4}$
But in Practice this may be done more concisely and correctly, thus:

Note,

Note, Iron Manufactured, or Iron Wares charged by the piece, or hundred weight, are not to pay the Duty of 23s. or 33s. per Ton.

Where this Duty is to be Levied according to the Value, the meaning is according to the Rate of such Goods, if they be Rated: Or if they be Unrated, according to the Oath of the Importer, the Duties by this Act Imposed not to be reckoned into the value of the same.

This Duty (a) is to be rais'd by the same ways and means, and under the same Penalties and Forfeitures, with the Customs, which see.

It is payable (b) at $\frac{4}{3}$ Months from the Importation (that is at 4 Gales, each 3 Months posterior to the other) and if the Merchant pay Ready Money, he has a Discount of 10 per Cent. per Ann. which for $\frac{4}{3}$ Months is $6\frac{2}{3}$ per Cent. (c) except Pepper, whereof $\frac{1}{3}$ is to be paid down without any Discount, the other $\frac{2}{3}$ may be Bonded, payable at 12 Months, and if paid down, has a Discount of 10 per Cent. so that if the whole be paid in Ready Money, the Discount is $6\frac{2}{3}$ per Cent. which is equal to 5 per Cent. and $\frac{1}{3}$ of the same added together.

To work this Duty, take the following Example.

15 lb Italian Wrought Silk Imported in a British Ship.

Turn to Silk in Part. III. and you will find that Sort rated at l. 1. 13. 4 per Pound weight, and by the List aforesaid, charg'd with 2s. for every 20s. Value, which for l. 1. 13. 4 is for every Pound Weight l. — 3. 4 consequently for 15 lb — l. 2. 10. —

Discount $6\frac{2}{3}$ per Cent. — — — — — 3. 11.

Net Import — — — — — l. 2. 6. 10½

If Bond were to be taken for the same, the Sum to be Bonded would be — — — — — l. 2. 10. —

Upon Exportation within the time limited by Law, this Duty is (d) wholly Drawback, or the Security Vacated, except on the following Particulars, which Drawback, viz.

Alamodes and Lustrings (e) } — — — — — Nothing.

Cable Yarn and Cordage (f) } — — — — — Nothing.

Hops Foreign, to Ireland (g) } — — — — — Nothing.

All Goods not particularly Rated (except Mum, } Brandy, and such Goods as are charg'd with the } Impositions, 1697)	—	1	—

Where it is said this Duty is to be Levied at so much for every 20 s. value, the meaning is for every 20 s. such Goods stand rated at in Part. III. if the Goods be rated; but if they be unrated, according to their real value, to be affirmed upon the Oath of the Importer, in the Presence of the Customer, Collector, Comptroller, and Surveyor, or any Two of them.

This Duty is sometimes call'd the *Additional Impositions*, but generally *Impositions* 169 $\frac{1}{2}$ (because then first granted) (c) and may be Bonded, payable at $\frac{4}{5}$ Months from the time of Importation. If the Merchant incline to pay Ready Money, he has a Discount of 10 per Cent. per Ann. which for $\frac{4}{5}$ Months is 6 and $\frac{1}{4}$ per Cent.

It is to be wrought the same way with the Impost, 1690. by considering the several Rates in Part. III. and how much the Goods stand

charged respectively by the List aforesaid, in proportion to those Rates, or otherwise, and therefore needs no Example.

But Note, That the 12 per Cent. for Leakage, 12 Car. 2. c. 4. R. 8. is not allowed out of the Duty payable on French Wines by this Act.

Upon Exportation of the Goods within the time Limited by Law, this Duty is (d) wholly Drawback, or the Security Vacated.

Except

Alamodes, and Lustrings, which Drawback nothing. (e)

Lapis Calaminaris Exported, is by the said 4 & 5 W. & M. S. 2. charged with 20 s. per Ton, but by 8 & 9 W. 3. c. 20. S. 9. reduced to l. — 2. — per Ton.

By the said 7 *A.* this Duty stands appropriated to the same Uses and Purposes with the Moiety of the Customs, *page (3)*

It is sometimes call'd *The further Duty on Coffee*, &c. and charges all the Goods in (*a*) the Branch of the Revenue last treated of (*viz.* *New Duty on Coffee, Tea, &c.* N^o. 11.) (*b*) with the very same Duties there respectively mention'd, to which I refer.

It likewise lays (*c*) a further Duty on *Drugs Imported*, *viz.* upon all Rated Drugs *10 per Cent.* according to their Value in the Old Book of Rates, printed *Anno 1660.* (being $\frac{1}{3}$ part only of the Rates charg'd in Part. III.) except Dying Drugs; and upon all Unrated Drugs (except Dying Drugs) *4 per Cent.* according to their Value, to be ascertained upon the Oath of the Importer, except *East-India Drugs* Unrated, the Value whereof is to be reckoned according to the Gross Price by publick Auction, or Sale at the Candle.

All the Duties aforementioned are payable in Ready Money, without any Discount, and need no Example, except *East-India Drugs* Unrated, for which see Part. II.

The Duty of *4 per Cent.* abovementioned (except on *East-India Unrated Drugs*) is for every 20 s. Value, upon Oath, 9. d. and $\frac{1}{3}$, or 12 d. in the Pound, abating $\frac{1}{3}$.

(*d*) By *Dying Drugs*, and *Goods* exempted from Payment of this and other Duties, are meant these following only, *viz.*

By the said Act (and comprehended under the Title of this Branch of the Revenue) there is likewise a Duty granted, (f) upon all ~~White~~ **Callicoes** Imported (by which are meant all Callicoes which do not pay Duty as Muslins, and all Dimities and other Manufactures of Cotton) after the rate of l. 15. — — per Cent.

And for and upon all (g) ~~Porcelan~~ **Porcelan**, commonly called China, or Japan Wares made of Earth, a Duty after the rate of l. 12. — — per Cent. both according to their true and real Value by Sale at the Candle in *London*.

The (b) l. 15. — — per Cent. on *White Callicoes* is subjected to the same Allowance with the l. 15. — — per Cent. on *Muslins*, by the 11 & 12 W. 3. c. 3. s. 2 & 6. and the Duty on *Porcelan*, to the Allowances given to Unrated Goods from the *East Indies*, by 2 & 3 A. c. 9. s. 7. For the particular manner of working both, *vide* Part. II.

Upon Exportation of the Goods by this Act charged, as aforesaid, the Duties are ~~Drawnback~~ **Drawnback**, as follows, *viz.*

N^o 13.—Second 25 per Cent. on French Goods.

BY 7 & 8 W. 3. c. 20. this Duty was granted from 28 February, 1696. to 28 February, 1717. and from thence to the End of the next Session of Parliament, and is not yet particularly appropriated.

It is sometimes called the *French Duty*, sometimes, as above, the *Second 25 per Cent. on French Goods*, and sometimes *l. 25. — — per Cent. Additional Duty on French Goods*; the reason of calling it the *Second 25 per Cent.* is because *French Goods* were before that charg'd with 25 per Cent. by 4 & 5 W. & M. c. 5. §. 2. and is to be rais'd by such ways and means, and under the same penalties and forfeitures with the Customs, Page (3)

It is payable in Ready Money without any Discount on the following Commodities, viz.

		l.	s.	d.
French	Brandy { Single, the Ton	30		
	{ Double, the Ton	60		
	Vinegar, the Ton	15		
	Wine, the Ton	25		
	All other Goods of the Growth, Product, or Manufacture of France, for every l. 100. — — value	25		

Note, By the Article last mentioned is meant a full Fourth Part of the Value upon Oath, if the Goods be not Rated, but if Rated, 25 per Cent. according to their Value in the Column of Rates in Part. III.

The Allowance (a) of 12 per Cent. on Wines for Leakage by the VIIIth Rule in the Book of Rates, does not extend to this Duty.

No part of this Duty is drawn back upon Exportation.

This

This Duty stands appropriated by the said 7 A. to the use of the Mint, (a) and is payable in Ready Money, without any Discount, upon the following Imported Liquors, whether fill'd, or unfill'd, viz.

Beer or Beer Eager	}	the Ton	l. — 10. —
Syder or Syder Eager			
Vinegar			
Wines			
Brandy or Strong Waters		the Ton	l. —

But Note, *The Practice is not to charge Prizage Wine with this Duty.*

It is to be levied (b) by the same ways and means, and under the same penalties and forfeitures with the Customs, (c) and there is a Salary allow'd for Collecting the same of 12 d. in the pound, by Warrant from the Lord High Treasurer, which usually is distributed equally between the Comptroller General, Receiver General, and the several respective Collectors.

Upon Exportation of the said Liquors within the time limited by Law, this Duty is (d) wholly Drawback.

N^o 15. — Prizage,

IS an Antient Duty payable to the Crown of England by Prescription, and without Limitation, upon Importation of Wines, and is confirm'd by 12 C. 2. c. 4. §. 15. by 17. 2. c. 3. §. 6. and by the XXVIIth Rule in the Book of Rates (a)

Prizage is either Single or Double, — Single is one Ton, and is Due when the Quantity Imported amounts to Ten Tons, or under Twenty — Double Prizage is Two Tons, and is due when the Quantity amounts to or exceeds Twenty Tons, but when the Quantity of Wines Imported is under Ten Tons, there is no Prizage due.

It is taken by the proper Officers ($\frac{1}{2}$ before the Mast, and t'other behind, without tasting) either in kind, or at a certain price by Agreement, and is subject to the same Duties as if it were imported by way of Merchandize, (b) except the Old Subsidy and Additional Duty: Only with this difference as to the Impost, (c) that it has not the benefit of 8 per Cent, allow'd for Waste in the Cellars, as in Page (15).

When the Prizage is taken in kind for the Queen, the Method is to sell it to the best Advantage, and what remains after deducting the several Duties to which it is liable, is brought to Account under the Title of Prizage.

In England the Prizage generally belongs to some Nobleman by Gift or Patent from the Crown, but the Wine is still liable to the fore-

N^o 16.—Butlerage,

IS an Antient Duty payable to the Crown of *England* by *Charta Mercatoria*, without Limitation, upon all Wines Imported by Strangers, confirm'd by 12 C. 2. c. 4. §. 6. at the End of Rates Inwards. And by the XIIth and XXVIIth Rules in the Book of Rates, *vide* Part. IV.

It is 2 s. *per* Ton without Discount, or Drawback, upon Exportation.

N^o 17.—New Duty on Pepper, Raisins, &c.

BY 8 A. c. 7. §. 1. this Duty was granted from 6 February, 1709. to 6 February, 1741. and (a) stands appropriated with others for Payment of l. 900,000. — then borrow'd for the Service of the War, &c. and (b) is to be levied by the same ways and means, and under the like penalties with any other Duties payable by former Acts on the Commodities charg'd by this.

The Duty granted by this Act is, as follows, *viz.* (c)

	l.	s.	d.	20

N^o 19. — New Duty on Coals, Culm, and Cynders.

BY 8 A. c. 4. §. 1. this Duty was granted from 29 September, 1710, to 29 September 1742, and stands appropriated to the payment of £. 1,500,000 — — borrowed for the Service of the Year 1710.

It

It is to be (a) rais'd, levied, and collected by any Statute or Law then in force, by virtue of 4 & 5 A. c. 6. §. 2. in which reference is had to 9 & 10 W. 3. c. 23. §. 4. with respect to the Duty on Coals Imported, and to 9 & 10 W. 3. c. 13. §. 8. in relation to the Duty on Coals and Culm brought Coastwise, and to 10 & 11 W. 3. c. 21. §. 28. as to Cynders.

The Duty by this Act payable is as follows, viz.

		l.	s.	d.
Coals	{ the Ton, cont. 20 C. w ^t }	—	3	—
	{ at 112 lb each ——— }	—	—	—

Cynders made of	{ the like Ton ——— }	—	—	—
	{ the like Chalder ——— }	—	—	—
Pr Oak	{ Coastwise, the like Chalder ——— }	—	3	—

This Duty (b) may be Bonded, payable in 3 Months, and if paid in Ready Money, has a Discount after the Rate of 10 per Cent. per Annum, which for 3 Months is 2 & ½ per Cent.

The Duty (c) from Foreign Parts is payable by the Importer; the Duty (d) Coastwise by the Owner or Master of the Ship; and being paid once (e) is not to be charg'd again on the same Coals, &c. tho afterwards sent to another Port.

N. B. Coals carry'd (f) between the Bridge of Stirling and Dumbarton in the Fryth of Forth, are exempted from this Duty.

The manner of working this Duty is so plain and obvious, that it needs no Example, I shall therefore only add, (g) that upon Exportation this Duty is wholly Drawback, or an equivalent allowance made out of the Oversea Duty on Coals.

N^o 20. — Subsidy Outwards, and Additional Duty on Coals and Candles.

BY 9 A. c. 6. §. 22. this Branch of the Revenue is made a Fund of Credit for the Payment of £. 1,500,000. — borrowed for the Service of the Year 1711. and is granted for 32 Years from the respective Commencements of the following Duties.

Subsidy

Subsidy Outwards.

THis Duty was first granted by 12 C. 2. c. 4. §. 1. as a part of the Subsidy of Poundage, and thenceforward Continued accordingly, as was hinted Page (4) till 1 August, 1710. from which time it ceased to be payable, till by 9 A. c. 6. §. 1. it was Revived from 8 March, 1710. to 8 March, 1742.

It is 5 per Cent. or 12 d. in the pound upon all Goods Exported, according to the Rates respectively charg'd upon them Outwards in Part. III. under the Title *Rates*, or if they are not there Rated, according to their respective Values, to be affirmed, and ascertained by the Oath of the Exporter, *as at the End of Rates Outwards.*

Example.

30 hundred *British* Allom ————— l. 1. 10. —
Allom is charg'd at l. 1. — — per hundred weight, whereof the 5 per Cent. is l. — 1. — and consequently for 30 hundred weight l. 1. 10. —

It is always payable in Ready Money, and has no Discount.

Under this Title, and continued by 9 A. aforesaid, is comprehended a Duty commonly called the *Mediterranean*-Duty, first granted 13 & 14 C. 2. c. 11. §. 35. and is 1 per Cent. both Outwards and Inwards (over and above all other Duties) upon all Goods Exported to any part in the *Mediterranean* Sea beyond the Port of *Mallaga*, from any Port of *Britain* capable of a Ship of 200 Tuns, or Imported from those Parts in any Ship or Vessel that hath not Two Decks, or carries less than 16 Pieces of Ordnance mounted, with Two Men to each Gun, and Ammunition proportionable, *unless* such Ship be *British*, and the one Moiety of her full Lading Outwards be Fish, in which Case the 1 per Cent. is neither payable Outwards nor Inwards.

Several Alterations have been made as to the Subsidy Outwards since first granted, and therefore such Goods are distinguish'd by *Italick* Characters in Part. III.

By this Act, with reference to 5 A. c. 27. §. 1. the following Relative Acts, are likewise Continued, *viz.*

Act for taking off the Aliens Duty Outwards —————	25 C. 2. c. 6.
Act for Lessening the Duty upon Tin and Pewter Exported —————	8 & 9 W. 3. c. 34.
Act for taking away the Duty upon Woollen Manufactures, &c. —————	11 W. 3. c. 20.

Other Relative Acts are, $\left\{ \begin{array}{l} 12 \text{ C. 2. c. 32.} \\ 13 \text{ \& 14 C. 2. c. 7.} \\ 13 \text{ \& 14 C. 2. c. 18.} \\ 15 \text{ C. 2. c. 16.} \\ 20 \text{ C. 2. c. 5.} \end{array} \right\} \text{ \&c. vide Page 3.}$

Note, Foreign Goods having paid Duty at Importation, by the VIIth Rule in the Book of Rates, may be Exported at any time Duty free, but where there is no Duty payable Inwards, the Practice is to make them

them pay the Subsidy Outwards, as in the case of Cotton Wooll of the British Plantations, which pays 5 per Cent. ad Valorem.

Additional Duty on Coals, Culm and Cynders.

THIS Duty is by 9 A. c. 6. §. 8. granted from 8 March, 1710. to 8 March, 1742. and (by reference to 4 & 5 A. c. 6. §. 2. and thence to 9 & 10 W. 3. c. 13. §. 12.) may be Bonded, payable at Three Months, and if Ready Money be paid down, there is a Discount allow'd after the Rate of 10 per Cent. per Ann. which for Three Months is 2 and $\frac{1}{2}$ per Cent. and is as follows, viz.

			l.	s.	d.
Coals	Imported	the Ton, containing 20 hundred weight, at 112 lb per hundred weight	—	2	—
		the Chalder, containing 36 Bushels Winchester measure	—	3	—

		the like Chalder	—	2	—
Culm	Coastwise	the like Chalder	—	—	4 $\frac{8}{10}$
Cynders		(except Charcoal) the like Chalder	—	2	—

This Duty is to be wrought as the New Duty on Coals, (Branch No 19) to which I refer.

It is payable (a) by the Importer as to Foreign Coals Imported, and (b) by the Owner or Master of the Ship, Coastwise; and being paid at any one Port, (c) is not to be paid a Second time, tho' the Goods be afterwards carry'd to another.

Coals carry'd (d) between Stirling, Dumbar, and Redhead in the Firth of Forth, are exempted from this Duty.

Upon Exportation, this Duty is (e) Drawback, or an equivalent Allowance made, out of the Oversea Duty on Coals.

(a) 9 & 10 W. 3. c. 13. §. 3.

(b) Ditto — §. 5, 6.

N^o 25. — Excise on Salt, Imported,

BY 5 & 6 W. & M. c. 7. §. 3. was granted from 25 March, 1694. to 17 May, 1697. and thence

7 & 8 W. 3. — 31. — 2.	{ Continued for ever, viz. for every Gallon 3 d. } { which is for every Bushel } { There was granted a fur- ther Duty of 7 d per Gal- lon, from 24 Decem. 1699. for ever, which is for eve- ry Bushel }	1. — 2. —
9 & 10 W. 3. — 44. — 3.		— 4. 8

The Bushel (formerly 8 Gallons) (a) now 84 lb Salt, pays in all — l. — 6. 8

The 2 s. per Bushel, was by 1 A. c. 12. §. 17. and 8 A. c. 13. §. 13. applicable to the Uses therein mentioned, till 1 Aug. 1716. but after payment of the Money borrow'd, as mentioned in the said Acts, it stands appropriated by 9 A. c. 21. §. 5. to the South-Sea Company for ever, towards payment of l. 9,471,325. — — and Interest.

The l. — 4. 8 per Bushel, stands appropriated to the East-India Company by 9 & 10 W. 3. c. 44. §. 46. for payment of l. 2,000,000 with Interest, but by 10 A. c. 28. §. 1. is to cease upon 3 Years notice after 25 March, 1733. and Repayments of l. 3,200,000. — — with Ar-rears.

The Excise on Salt, (b) may be Bonded, payable in 6 Months from the Delivery of the Salt out of the Cellars, with a Discount of l. 10. per Cent. per Annum, which for 6 Months is l. 5. per Cent.

For the Regulations Inwards, vide Salt, in Index, Part. IV.

Upon Exportation of the Salt, this Duty is (c) wholly Repaid; or Security Vacated.

Fish, or Flesh cured with Salt, that has paid or secured the Excise, Drawback likewise as in the Scheme for Calculating the same, Part. II. but under the Regulations in Fish, Index, Part. IV.

N.B. All the Branches of the Revenue hitherto Treated of, are under the Management of the Commissioners of the Customs, both in Eng-land, and Scotland, except the Excise on Salt, which in England is under the Management of the Commissioners of the Salt Duties.

By the 8th Article of the Union, (d) there is a Duty payable in Scotland (only) and under the Management of the Commissioners of the Customs there, for so much Scots Salt as is used in Curing Flesh Ex-ported from thence to Foreign Parts, or to England, and likewise for Provisions used by Ships trading thence, either to Foreign Parts, to England, or from Port to Port in Scotland, according to the Excise payable in England till 1 May, 1714. which is l. — 3. 4. per Bushel, but thence forward after the rate of l. — 2. 4. only, because from that time all Scots Salt becomes chargeable with 12 d. per Bushel, vide Duty Coastwise, Part. III.

P A R.

PARTITION II.

HAVING dispatch'd the first General Division, I come now to shew more particularly the Manner and Method of Computing the Duties upon all Goods Imported, and to assist you with several Compendious Schemes, Forms, Rules and Directions, for your more certain and expeditious Operations.

But here I would be understood to speak to one previously acquainted with the Common Rules in Arithmetick, my design'd Brevity not allowing me to touch upon that further than as it relates to the matter in hand.

To begin then with **Tonnage Goods**, explain'd *page 4, 6, 8, & 11.*

Suppose 1 Ton of *Spanish Vinegar* Imported into any Port by a *British Merchant* in a *British Ship*, for Sale, and the Duties paid down, it is thus to be charg'd:

Filled			1 Ton Spanish Vinegar			Unfilled		
l.	s.	d.				l.	s.	d.
4	10	—	—	Old Subsidy	—	3	19	2½
—	4	9	—	New Subsidy	—	—	4	9
—	1	7	—	One third Subsidy	—	—	1	7
—	3	2	—	Two thirds Subsidy	—	—	3	2
6	19	10	—	Impost	—	6	3	¾
—	10	—	—	Coynage	—	—	10	—
12.	9.	4	Total			11.	1.	9¼

After the same manner (mutatis mutandis) the Duties on Perry, Rape of Grapes, Syder, and Syder Eager are to be wrought, as in page 4, 6, 8, & 11.

The Impost on Vinegar varies when Bonded, or for private Use, or by Vintners and Retailers, as Wine does; for Calculating the Duties whereof with the more Ease and Certainty, here follows a Table of the Net Duties on all Wines, except *French Wines*, for which *vide Appendix.*

The manner of working the Duties in the following Table, is fully demonstrated under the several respective Branches, Part. I. and the Table it self is thought so plain, that a further Explanation or Example is needless; and because in the case of Post-Entries, Over-Entries, and Allowances for Damages, there frequently happen odd Gallons, the Computation of the Duties whereof is very troublesome, because Wines are charg'd by the Ton of 252 Gallons, you have immediately following a Decimal Table for the several Duties payable on a Gallon of all Wines, except *French*, and will be extremely useful in Practice.

						This

This Decimal Table is Calculated for the Out-Ports, but will thus answer for the Port of *London*.

The Difference between the Duties payable to the Crown there, and in the Out-Ports, on all Wines Imported, except *Rhenish*, is, viz.

For	Old Subsidy—	} The Ton	fill'd—	l. 1. 10.—
	New Subsidy—		unfill'd—	1. 6. 4 $\frac{1}{2}$
	$\frac{1}{3}$ & $\frac{2}{3}$ Subsidies—			
The Decimal for a Gallon is—			fill'd—	.005950
			unfill'd—	.005238

By adding therefore this Decimal to the Decimal in the foregoing Table, for each of those Duties, you have a Decimal answering the Duty in the Port of *London*, and this Decimal singly answers the Duty of a Gallon of such Wines coming to *London* from the Out-Ports; for by a Clause after the Tonnage Duties in the Book of Rates, confirm'd by 12 C. 2. c. 4. §. 6. and by 9 & 10 W. 3. c. 23. §. 4. Wines landed in the Out-Ports, and afterwards brought to *London*, are to pay the Advance-Duty aforesaid, being so much as they paid Short of the *London* Duty before.

The truth of the foregoing Decimal Table will appear by multiplying the Decimal for a Gallon by 252, the Gallons in a Ton, the Product whereof agrees exactly with the preceeding Wine Table.

Note, *Florence Wine* pays Duty as Spanish, and when Imported in Chests, is computed at 8 Gallons to the Chest of 40 Flasks, (tho' 40 Flasks will contain 10 Gallons) and so proportionably for Half Chests, $\frac{1}{2}$ being allow'd in consideration of breaking, so that if, upon Landing, they be all found Broken, there is no Repayment. If the Flasks be Larger or Smaller than usual, the Discharging Officer adds or diminishes accordingly.

I proceed next to shew the Operations on Poundage Goods.

The Value or Rates of Poundage Goods, are to be found in the 1st Column, Part. III. under the Title *Rates*, whereof the 20th part, or 5 per Cent. is the Gross Duty or Sum to be Bonded, and generally the Discounts are either 5 per Cent. or such Sums as may readily be found by that. I therefore recommend the following short Table of 5 per Cent. upon the aliquot parts of a pound to be got by heart, because it will be extremely useful in all your Operations.

l. s. d.	l. s. d.	l. s. d.	l. s. d.	l. s. d.	l. s. d.	l. s. d.	l. s. d.	l. s. d.
5	$\frac{1}{4}$	3 9	$2\frac{1}{4}$	7 1	$4\frac{1}{4}$	11 8	7	
10	$\frac{1}{2}$	4 2	$2\frac{1}{2}$	7 6	$4\frac{1}{2}$	13 4	8	
1 3	$\frac{3}{4}$	4 7	$2\frac{3}{4}$	7 11	$4\frac{3}{4}$	15	9	
1 8	1	5	3	8 4	5	16 8	10	
2 1	$1\frac{1}{4}$	5 5	$3\frac{1}{4}$	8 9	$5\frac{1}{4}$	18 4	11	
2 6	$1\frac{1}{2}$	5 10	$3\frac{1}{2}$	9 2	$5\frac{1}{2}$	1	1	
2 11	$1\frac{3}{4}$	6 3	$3\frac{3}{4}$	9 7	$5\frac{3}{4}$	and so for every		
3 4	2	6 8	4	10	6	1	1	

By this you see that the 5 per Cent. of $l. 1.$ — — is $l. 1.$ — — and so in proportion for any part of a pound; Thus $l. 19.$ — — consists of 18s. 4d. and 10d. whereof the 5 per Cent. is 11d. 8 $\frac{1}{2}$ as above, and so for any other Sum.

To take the 5 per Cent. on a large Sum, cut off the right hand Figure of the pounds, and that Figure is shillings, take the $\frac{1}{2}$ of the rest, and you have the answer in pounds; if any thing remains, it is 20s. and is to be added to the shillings cut off, as before, thus: $l. 1168.$ is $\frac{116}{20}$ or $l. 58.$ 8. — so $l. 5991$ is $\frac{599}{20}$ or $l. 299.$ 11. — and $l. 25817.$ 10. — is $\frac{2581}{20}$ or $l. 1290.$ 17. 6.

To find the 10 per Cent. of any Sum, cut off the right hand Figure, what stands to the left hand is the answer in pounds, and the Figure cut off to the right hand being doubled, is the answer in shillings, thus $l. 1168.$ is 116, 8. or $l. 116.$ 16. —

By the 5 & 10 per Cent. all other Discounts practised in the Customs may likewise be readily found, thus:

12 & $\frac{1}{2}$ —	} per Cent. is	10 per Cent. & $\frac{1}{4}$ or rather $\frac{1}{8}$ of the given Sum.
10 —		5 per Cent. twice, or rather, as before.
8 —		10 per Cent. deducting $\frac{1}{2}$
7 & $\frac{1}{2}$ —		5 per Cent. and the $\frac{1}{2}$ of the same added together.
6 & $\frac{2}{3}$ —		5 per Cent. adding $\frac{1}{3}$
6 & $\frac{1}{4}$ —		5 per Cent. adding $\frac{1}{4}$ or 15d. per pound & $\frac{1}{4}$ d. per shilling.
6 —		5 per Cent. adding $\frac{1}{5}$
4 & $\frac{1}{2}$ —		5 per Cent. deducting $\frac{1}{10}$
4 —		5 per Cent. deducting $\frac{1}{3}$
2 & $\frac{1}{2}$ —		the $\frac{1}{2}$ of 5 per Cent.
2 —		the $\frac{1}{3}$ of 10 per Cent.
1 —		the $\frac{1}{5}$ of 5, or the $\frac{1}{10}$ of 10 per Cent.
$\frac{1}{2}$ or $l. 10$ —		the 5 per Cent. of 10 per Cent. or the 10 per Cent. of 5 per Cent.
$\frac{1}{3}$ or — 6. 8. —		the 5 per Cent. of 5 per Cent. adding $\frac{1}{3}$

This way of working by 5 & 10 per Cent. and their relatives, will be useful in many other cases beside the Customs: For instance,

Suppose Interest at 5 & $\frac{1}{2}$ per Cent. for a Year were } $l. 680.$ — —
demanded for —————

5 per Cent. of that Sum is ————— 34. — —

$\frac{1}{2}$ per Cent. or $\frac{1}{10}$ of the 5 per Cent. ————— 3. 8. — —

5 & $\frac{1}{2}$ per Cent. for a Year ————— $l. 37.$ 8. — —

If you know the Interest for a Year, there remains no great difficulty to find for Months and Days; only by the way you may

Note, That { 6 per Cent. for 10 Months, } is equal to 5 per Cent. for 12 Months.
 { 4 per Cent. for 15 Months, }
 { 3 per Cent. for 20 Months, }

But

But to return to the Customs, some work by Decimals, and is in many Cases the shortest way; but in regard Decimal Arithmetick is not so universally understood, I confine my self to common Arithmetick, except in one Table *page 50*, where I am obliged to use Decimals to avoid Fractions less intelligible.

To proceed then; Suppose you were to work for the Duties of 20 C. weight of Battery, and 1 Ton of *Spanish* single Brandy, value *l. 20.* — — let your Operations be thus :

To find the Subsidies Turn to *Battery*, Part. III. and work according to the Rate, as directed in treating of them severally, Part. I. and for the *Impost* to Page (22) and so for the other Branches.

Note, For Brevity I put down the Numbers of the Branches as in Page (2) instead of naming them : Only take Notice, That where-as there, Customs is N^o 1. in this Partition by N^o 1. is meant the Old Subsidy, which is a part of the Customs ; and where I have occasion to put down Petty-Custom and Additional Duty (which are likewise parts of the Customs) I mark the one N^o 27. and the other 28. the successive Numbers to those Enumerated.

Some choose to work by the Value, and to take the Duty at last only, but I prefer the way of working by the Duty as above, because the other seems less intelligible to beginners, for whose benefit this is chiefly designed ; it has more figuring, and after all, cannot be so Posted into any Books, because it would occasion too great an extension, and the Duties after all must be inserted in proper Columns, whereas by this Method the Duties are posted into the respective Books as they stand in the Merchants Bills of Entry, and in the Warrants, and so may be confronted and compared at pleasure, without any difficulty ; however that you may see the Method, I shall work the foregoing Two Examples by the Value, and leave you to choose at pleasure,

The Duties on Foreign Tobacco cannot be Bonded, except the Impost only.

For the Operations of this Example, see the Branches respectively Part. I. where likewise you will find how the said Duties are to be charged when Bonded.

Examples continued in this manner would prove too Voluminous, therefore here follows a Table, demonstrating the Net Duties payable by Subjects in Ready Money out of a *British* Ship, on the several sorts of Goods, which admit of any difficulty in the Computation, by adverting to which, the Operations of all other Goods so Imported (except *East India* Goods) may be easily Discovered.

If you have any difficulty about the manner of Computing the Duties on any Article in the said Table, turn to the Branch of the Revenue as to which you are in suspense, and there you'll find a Solution. Thus for Goats Skins Drest not Cordivant, you will find by the Branches N^o 1, 2, 3, 4, 8. or by the Rates in Part. III. that such Skins not being Rated pay those Duties *ad valorem*; by N^o 25. by the Dozen; and by N^o 24. by the Pound weight.

I come now to shew you the Method of Entring and Computing the Duties on several Commodities together.

When the Subsidy of Tonnage and Poundage was granted to King *Charles* the Second, there was but one Duty payable Inwards generally, viz. The Old Subsidy (for the Additional Duty and Petty Customs were chargeable in a few Cases only) consequently but one Column necessary to work for that Duty: And tho' several other Duties have been since Granted to the Crown, all to be kept separate, because differently appropriated, yet as they were given, some at one time and some at another, the old Method of working by one Column is generally retain'd, and the other Duties are computed in the empty Spaces of the Bill, and brought to a Total at the foot. Thus,

A TABLE, shewing the Net Duties payable by Subjects in Ready Money (all Ships, being such as admit of the most Variety in the Duties, and greatest depending on the Oaths of the Importers.

This Method is very good to such as, by daily Experience, have the several Duties imprinted on their Memories, and are not at the Trouble of turning to the Book of Rates for the several Articles and Duties; But to others who are no further Masters of the Duties than as they present themselves to View, when the Goods are respectively turn'd to, 'tis presum'd the following Method may be more Plain and Expeditious.

Fold your Paper design'd for the Bill or Entry, into Four Columns to the Right Hand, to quadrate with the Four Duties generally Payable, viz. Old Subsidy, New Subsidy, Impost 1690. and 169 $\frac{1}{2}$. Then Note the Ship, Master, Merchant, &c. as usual, and so range your Goods as in the former Example: Then turn to them respectively in Part. III. for the Subsidies, and to Part. I. for the other Duties, setting down the Gross Duties in the said Four Columns, and so bring them to a Total, from which Subtracting the proper Discounts, what remains is the Net Duties, which are to be brought to a grand Total with such other Duties as you have occasion to Work for in the vacant Spaces of the Bill.

To such as use the Book of Rates lately in use, where those Four Duties are Inserted in proper Columns, this is by much the more expeditious way of Working, because at one Opening you fill your Four Columns.

That

That you may the better judge and determine between the former Method and this, I shall repeat the last Example, changing the Form, and so proceed to some others.

Note, By the word Ind. in the Example aforesaid, is meant Indigenus, or Indweller, or Subject, because they stand Privileg'd beyond Aliens; and that the Tobacco Pipes are charg'd as Earthen Wares.

I thought here; to have inserted the Method of Computing East-India Goods, according to my Promise Page 5, 26, 41, &c. but as it is yet in Dispute between the Queen and the Company, and an Alteration expected to be made this Session of Parliament, I am oblig'd to refer to Appendix at the end of Part. IV.

Note,

Note, In most of the Examples I have pass'd from several compendious ways of working, to make them the more intelligible, and therefore I shall give you a specimen or two, and leave you to practise for the rest.

Suppose you were to work the Example of 1200 lb of Tobacco British Plantation, Page (56) proceed thus:

The $\frac{1}{12}$ of 1200 d. is $\frac{10,0}{5}$ Shillings		l. 5. — —
		— 5. —
Net {	Old Subsidy	4. 15. —
		— 2. 4 $\frac{1}{2}$
	New Subsidy	4. 12. 7 $\frac{1}{2}$
		— 4. 9
	Additional Duty	4. 7. 10 $\frac{1}{2}$

In this Operation you first set down l. — 4. 9 at some distance below, and the $\frac{1}{2}$ thereof above it under the l. 4. 15. — and so substract one after another, and you have the Three Duties at one working; for 2 & $\frac{1}{2}$ per Cent. from the Old Subsidy gives the New Subsidy, and 5 per Cent. from that gives the Additional Duty, being equal to 7 & $\frac{1}{2}$ per Cent. from the Old Subsidy.

In working the Discounts on the Impost on Tobacco from the given Number of Pounds of Tobacco, either in your Mind, or with your Pen, cut off the Two right hand Figures, and what stands to the left hand is the Answer, viz. for 4 per Cent. Shillings; for 8 per Cent. 2 Shillings so often; for 10 per Cent. Half Crowns; for 6 per Cent. 18 d. so often; and for 2 per Cent. 6 d. only you are to remember, that the two right hand Figures are proportional parts of the value of the Figures to the left hand: Thus for 1200 lb Tobacco 4 per Cent. is 12,00 or 12 Shillings, and 4 per Cent. on 1275 lb would be 12,75 or 12 s. 9 d. for 75 is $\frac{3}{4}$ of a Shilling; the reason is, the Impost on Tobacco is 3 d. per pound, now 4 per Cent. is 4 Three pences, or a Shilling for every hundred pounds, which you discover by cutting off the two right hand Figures, being the Tens and Unites. But I remember Brevity is my Sphere, and therefore having offer'd what I think may suffice, as to the Calculating the Duties upon Entries (except on East India Goods) I proceed to say something about Damages and Over-Entries.

Damages on Wines and other Goods being adjusted, as in the IVth Partition, under the Head of Damages, and being Certified accordingly, the Duties to be repaid are Endors'd on the Certificate, which being Sign'd by the proper Officers, is, with the Merchants Receipt, a sufficient Voucher for such Repayment.

An Over-Entry is, when a Merchant has Entred and Paid Duty for more Goods than he really has: It is Certified by the proper Officers, and Sworn to by the Proprietor, and then Endors'd as the Certificate

of Damage. There is no Law for a Repayment in case of an Over-Entry, only it may be inferr'd from the words of the Law, as to the Payment of the Duties, which are always upon such and such Goods Imported, so that where there are no Goods Imported, there is no Duty payable.

The Duties to be Endors'd in such cases are always the whole or a part of what was paid Inwards, concerning which, you have had full Directions, and therefore I need not repeat them.

The last part of the Business within Doors, or above Stairs, I shall take Notice of in this place, is to say something about Drawbacks, that is, the Duties to be repaid upon Exportation of Foreign Goods within the time limited by Law, upon Debentures regularly made out, certified, and sworn to.

You may remember that in Page (7.) I referred to a Table of the time limited by Law for Exporting Foreign Goods, so as to be entitled to a Repayment of the Duties paid Inwards, or any part thereof, for which reason also, I took no Notice of the same in handling the several Branches; here follows a Table therefore of the time limited with respect to each Duty; only please to observe, That tho' the Law has given a longer time than the usual Term of 12 Months to *British*, and 9 to Strangers on some Goods, yet it is with respect to the Duties there enumerated and referred to *only*, for the giving a longer time, upon granting a New Duty, does not extend the time otherwise limited as to a former.

The Duties to be Drawn back on Exportation in time, are always either the whole paid Inwards, or some certain Part or Portion of the same; an Example therefore would be Superfluous after such full Directions already given about the manner of Computing the Duties payable at Importation; and to know what Part or Proportion of each Duty is to be repaid, I might refer you to the Branches in Part. I. severally, but because the Exceptions are Numerous, and that you may proceed with Readiness and Certainty, I have subjoyn'd the following Table, wherein you see at once in what Proportion the several Duties are to be Drawn back upon all Goods whatsoever.

For

For the better Understanding the foregoing Table, please to observe,

That the Numbers at the Top denote the Branches, as in Page 2. and that N^o 5, 13, 14, 16, 17, and 26. are designedly left out, because no part of those Duties is to be Drawn back upon Exportation.

That the Articles in that Table mentioned, are Exceptions in some respect to the General Rule of Drawing back all the Duties, saving the Moiety of the Old Subsidy.

That all those Articles have their Repayments Noted in the several Columns, for the Duties to which those Goods are lyable at Importation, &c.

That the Proportions there Noted, are such a Part, or Parts of the Net Duties Inwards; For Instance, If Leather Manufactures were to be Exported, which at Importation had been valued at *l.* 100. — and paid all Duties accordingly, you Work for the Duties Inwards (or consult the Entry) and so endorse on the Debenture the $\frac{1}{2}$ of the Net Old Subsidy, the whole New Subsidy, $\frac{1}{3}$ Subsidy, $\frac{2}{3}$ Subsidy, Import, 169 $\frac{2}{3}$ and $\frac{2}{3}$ Parts of the New Duty, and of the Additional Duty on Leather, and so for the rest.

Sugars Imported from the *British* Plantations in *America*, and afterwards Refined in *Britain*, being Exported within 12 Months by *British*, or 9 Months by Strangers, have an Allowance of 4 Shillings per Hundred weight, Oath being made of the Payment of the Duties Inwards, &c. 9 & 10 *W.* 3. c. 23. and 2 & 3 *A. c.* 9.

Fish and flesh Exported, cured with (any Salt in *England*, but in *Scotland* only with Foreign) Salt, for which the Duties at Importation, and the Excise, out of the Cellars, or at the Salt Works, have been Paid or Secured, Drawback as follows, viz.

The Drawback on Fish and Flesh is payable in *England*, out of the Excise on Salt only, and the Collectors in *Scotland* are confin'd likewise to that Branch, but if they have not Money arising from the same, sufficient to pay the Debiture, it is to be Certified either to the Commissioners of the Customs, or Excise at *Edinburgh* (e) (at the Merchants choice) who are oblig'd to pay the same out of any Branch of the Revenue in their Hands, and yet no Defalcation to be made on that Account, out of the Excrescence payable to the Commissioners of the Equivalent, more than if such Payments had not been made.

Naval Stores Imported into *Britain* from Her Majesties Plantations in *America* directly, in Ships that may lawfully Trade, or from *North Britain* into *South Britain*, in *British* built Ships, are to have a Reward

ward according to the above Scheme, from 1 September 1713. till 1 June 1725. and thence to the End of the next Session of Parliament 12 A. C. 9. §. 1, 2.

Sails or Sail-Cloth British made (on Oath) and Exported, have a Bounty of 1d. per Ell till 21 July 1720. and thence to the End of the next Session of Parliament, to be Paid out of the like Duty so long payable on Foreign Sails and Sail-Cloth Imported. Except Sail-Cloth of and from Ireland.

I Come now to say something in relation to the Business below Stairs, or at the Water-side, in which there are several useful Compendious ways of Working, which, next to Integrity and Knowledge of Goods, are the best Qualifications of a Discharging Officer; and shall begin with Tare, that is an Allowance made in consideration of the Weight of the Cask, Box, Bale, or other Package, wherein any Commodity is contain'd.

Tare is either so much *per Cent.* or so much *per Bag, &c.* or so much of the Gross Weight according to the Commodity.

When it is so much *per Cent.* multiply the Gross Weight by the Tare, and divide the Product by 112. the Quotient is the Tare of the whole, which subtracted from the Gross Weight gives the Net weight. Or,

Subtract the Tare from 112. and by the Remainder multiply the Gross Weight, the Product whereof divide by 112. and the Quotient is the Net Weight. Thus,

C. q. lb.	Figs, Tare 12 <i>per Cent.</i> is Net	C. q. lb.
20 —		17. 3. 12.
12	C. q. lb.	
— C. q. lb.	Gross 20 —	
112) 240 (2 — 16	Tare 2 — 16	Or
16	Net 17. 3. 12.	112 lb.
		12
		100
		20
		— C. q. lb.
		112) 2000 (17. 3. 12. Net.
		880
		96

But the Tare may in most cases be found more expeditiously thus, Consider what even or aliquot Part or Parts of 112. the given Tare is, and Subtract such a Proportion of the Gross Weight; the Remainder is Net Weight. For instance, 32 C. wt. Gross at 14 *per Cent.* is Net 28 C. wt. for 14 lb. being $\frac{1}{8}$ of 112. I take $\frac{1}{8}$ accordingly of the whole Gross Weight, being 4 C. wt. which subtracted from 32 C. wt. leaves 28 C. Net, as before. Thus,

For 24 *per Cent.* take $\frac{1}{5}$ of the Gross Weight, and $\frac{1}{5}$ of the said $\frac{1}{8}$.

For 21 *per Cent.* take $\frac{3}{8}$ and $\frac{1}{8}$ of the said $\frac{1}{8}$.

For 18 *per Cent.* take $\frac{1}{4}$ and $\frac{1}{8}$ of the said $\frac{1}{8}$.

For 16 *per Cent.* take $\frac{1}{4}$.

For 14 *per Cent.* take $\frac{1}{8}$.

For

For 12 *per Cent.* take $\frac{1}{4}$, and the $\frac{1}{2}$ of the same; or from $\frac{1}{2}$ of the Gross take $\frac{1}{4}$ of the $\frac{1}{4}$.

For 10 *per Cent.* Suttle the Weight and cut off the Right hand Figure; or take $\frac{1}{4}$, and the $\frac{1}{2}$ of the said $\frac{1}{4}$.

For 8 *per Cent.* take $\frac{1}{4}$; or take $\frac{1}{2}$ of $\frac{1}{2}$ the Gross Weight.

For 7 *per Cent.* take $\frac{1}{4}$; or $\frac{1}{2}$ of $\frac{1}{2}$; or $\frac{1}{4}$ of $\frac{1}{2}$, which are equal.

For 6 *per Cent.* work as for 8 *per Cent.* and deduct $\frac{1}{4}$; or as for 4 *per Cent.* and add $\frac{1}{4}$.

For 4 *per Cent.* take $\frac{1}{2}$ of $\frac{1}{4}$ of the Gross; or 4 lb. for every C. wt.

For 2 *per Cent.* take $\frac{1}{4}$ of $\frac{1}{2}$ of the Gross; or 2 lb. for every C. wt.

2. When the Tare is so much *per Bag*, Hogshead, or other Package, multiply the Number of Bags, &c. by the Tare allow'd, and you have the Total Tare, which subtracted from the Gross Weight, gives the Net Weight.

3. When the Tare is mark'd on the Goods, and not ascertain'd, or when the Tare varies according to the Weight of the Goods (as for Raw Silk of *Smyna* and *Cyprus*), in such Cases the Tare of each is to be set down to the Right Hand, opposite to the Goods to which it belongs, which being cast up, and subtracted from the Gross Weight, gives the Net.

The usual Taxes and Allowances in Practice in the Port of London, follow at the End of *Part. III.* pag. (78.)

Oyl, though it be Entred and pays Duty by the Gallon, yet in uncertain Casks, it is weigh'd, and after deducting 18 *per Cent.* for Tare, is computed at 7 lb. and $\frac{1}{2}$ *per Gallon*, to work which, Multiply by 94. (being the Net of 112) the Produce is the Pounds Net, which doubled brings it to $\frac{1}{2}$ Pounds, and that divided by 150 (the $\frac{1}{2}$ Pounds in a Gallon) gives the Contents in Gallons; or Cut off the last Figure of your Hundreds, Half the rest, and you have the Tons, from which subtract for every Ton a Gallon and $\frac{1}{2}$, and you have the Net Contents.

Thus,

C.	660		C.	660	
	94			94	
	2640			33	33

In the Operation to the Right Hand the 44 odd Gallons are subtracted from 252, the Gallons in a Ton.

To bring Tobacco, or other Goods, which pay Duty by the Pound, from Hundreds to Suttle Pounds, work thus:

First set down your Hundreds weight, &c. Suppose ——— C. qr. lb
 Then under the Hunds. directly, set down the Hunds. again — 10. 2. 24
 Repeat the same one space more to the left Hand — 10.
 And again, one figure or space further to the left Hand — 10.
 To which add the 2. qr. 24 lb or 80 lb on the 4th l. or thus — 80.

And you have the Suttle Pounds of the whole ——— 1200.

I think

I think it needless to shew what proportion Foreign Weights bear to ours, because all weighable Goods are to be weigh'd, not computed, and therefore I proceed next to Measures, &c.

A Bushel of Foreign Salt, is to weigh, 1 A. c. 12. S. 6. ——— 84 lb

A Bushel of Rock Salt, 1 A. c. 21. S. 9. ——— 65

A Bushel of *British*, or small Salt, 9 & 10 W. 3. c. 44. S. 24 ——— 56

Foreign Linen is generally Contented according to the Measures of the Country or Place from whence it comes; for your Government therefore here follows an Abstract of the Proportions which several foreign Measures hold with ours.

Having the Proportions, Practice will afford you Rules for working short: For instance,

To reduce { Yards *British* — into Ells *Flemish* — Add $\frac{1}{3}$.
 { into Ells *British*, Subtract $\frac{1}{3}$, or Multiply
 by 8, and cut off the right hand Figure.
 { Ells *British* — into Yards *British* — Add $\frac{1}{4}$.
 { into Ells *Flemish* — Add $\frac{2}{3}$, or add a
 Cypher, and take $\frac{1}{2}$.

To

To reduce — **Ells Flemish** into Yards, Subtract $\frac{1}{4}$.
Ells Flemish into Ells *British*, Multiply by 6, and cut off the right hand Figure.
Ells Flemish into Ells *British*, and Hundreds, cut off the two last Figures, half those to the left hand, and allow 6 for every 10 to the right hand.
 Great pounds of Silk, of 24 Ounces, to pounds of 16 Ounces, Add $\frac{1}{3}$.
 Small pounds, of 16 Ounces, to pounds of 24 Ounces, Subtract $\frac{1}{3}$.

To measure Timber, whether square, or of unequal sides, this is a general Rule :

Take the number of Inches on the one side, and the other, in the middle of the piece of Timber, multiply the one by the other, and that product by the Length, which divide by 1728, (the Cubical Inches in one Foot of Timber) the Quotient gives the Content in Feet and Inches.

Balks — { Great, are to pay Duty as Timber.
 { Middle, from 5 to 8 Inches square.
 { Small, all under 5 Inches square.

Masts, being almost the only round Timber Imported, pay Duty by the Mast, and are paid at present according to the following Dimensions.

Masts — { Great — 36 }
 { Middle — 24 } Inches in Circumference at the middle.
 { Small — 18 }
 { Capravens — 12 }

To Gage a Ship.

If it be a Single-Deck'd Ship, measure the Keel within board (so much as she treads upon the Ground) likewise the Breadth within board by the Midship-beam, from Plank to Plank, and the Depth of the Hold from the Plank below the Kelsey to the under part of the Deck-plank; and for a Two-Deck'd Ship (which carries Goods between Decks) take the Depth of her Hold from the Plank below the Kelsey to the under part of the Upper Deck Plank, then multiply the Length by the Breadth, and the Product thereof by the Depth, and divide the whole by 94 for a Merchant Ship, or 100 for a Queen's Ship, the Quotient is her Tonnage.

But the Rule observed for Gaging Ships liable to Tonnage for making a Dock at *Liverpool*, by 8 A. c. 12. is thus :

Take the Length of the Keel (so much as she treads on the Ground) the Breadth within board by the Midship-beam from Plank to Plank, and half the Breadth for the Depth, then multiply the Length by the Breadth, and that Product by the Depth, which divide by 94, and it gives the Content of the Tonnage for all Ships.

By 5 A. c. 27. a Cylinder or round Vessel, having an even Bottom, and being 7 Inches Diameter throughout, and 6 Inches deep from the top of the Inside to the bottom, or any Vessel containing 231 Cubical

bical Inches, and no more, is a Lawful *Winchester* Gallon, whereof 252 make a Ton.

For Gaging all manner of Casks, or other Vessels, I refer you to *Everard's Stereometry*. But for the help of such as are not well skilled in Arithmetick, here follows a Table for the casting up the Gages of Buts, Hogheads, or such like Casks of Wine or Oyl.

It shews $\frac{1}{3}$ of the Area at the Head, and $\frac{2}{3}$ of the Area at the Bung of any Cask, ready cast up in Gallons and 1000 parts; so that measuring the Diameter of any Cask at the Head and at the Bung, and adding these two Numbers together, and multiplying that Product by the length of the Cask (the Dimensions of the Cask being always understood within the wood) and cutting off the three last Figures towards the right hand, you have the Content in Wine Gallons, and 1000 parts of a Gallon: For Example; Suppose

The Diameters $\left\{ \begin{array}{l} \text{at the Head to be} \text{---} 28 \\ \text{at the Bung to be} \text{---} 34 \end{array} \right\}$ Inches.

And the Length to be $\text{---} 56$

Look in the Table under the Title *Head*, and against 28 is found 0.888

Under the Title *Bung*, against 34 is found 2.620

These added together, make 3.508

Which multiplied by the Length 56 produces 196.448

From which cut off the three last Figures towards the right hand, and the Content will be 196 Gallons, and $\frac{448}{1000}$.

If

If the Diameters of the Cask at the Head and Bung happen to consist of Inches, and parts of Inches, work thus:

Look in the Table for the next greater Number, answerable both to the Head, and also to the Bung, setting down what is found against each of them under their several Titles; in like manner look for the next lesser Number, setting down what is found against them; then Subtract the lesser out of the greater, and Note the difference; then take a proportional part of the difference (according to the parts of Inches) and add to the Sum of the lesser Number, and proceed as before, when the Number of Inches was entire.

If the Length of the Cask happens to consist of Inches, and Parts of Inches, Multiply the Number of the $\frac{2}{3}$ of the Area at the Head, and $\frac{2}{3}$ of the Area at the Bung by the next greater Number to the Length of the Cask, and also by the next lesser, Subtract the lesser out of the greater, and Note the difference; then take a proportional Part thereof (according to the Parts of Inches) which being added to the lesser Number (cutting off the Three last Figures towards the right hand) shews the Content of the Cask in Gallons and Parts, as before.

Example.

Suppose { the Diameters at the Head to be $26\frac{1}{4}$ } Inches;
 { the Diameters at the Bung to be $34\frac{1}{2}$ }
 { and the Length to be $48\frac{1}{2}$ }

Silk thrown or orgazine
 In short Bales of Bologna with Searcloth and Cotton-wooll, about two hundred weight, for Tare 28 pound.

In long Bales with Searcloth and Cotton-wooll, the same weight, 30 pound.

In Naples Bales with Searcloth, about two hundred weight, 18 pound.

Fangots of Naples, about one hundred and a half with Searcloth, Tare 14 pound; and so downwards proportionably.

In Messina Bales double Canvas thrown and raw, about two hundred weight, 10 pound; with Searcloth and Cotton-Wooll, the same weight, 22 pound.

In long Bales of *Aleppo* with Cotton-wooll, about three hundred and a quarter, and downwards to two hundred and three quarters, for Tare 32 pound.

In Fangots of *Aleppo*, about two hundred and a quarter, or two hundred and a half, with Cotton-wooll, 24 pound.

In Fangots of *Aleppo*, about one hundred and three quarters, or two hundred, Tare 20 pound; about an hundred and a quarter, or an hundred and an half, 18 pound.

Silk raw
 Ardas Silk of *Aleppo* in short Bales with Cotton-wooll, from three hundred and a quarter, to two hundred and three quarters, for Tare 30 pound.

Of *Smyrna* and *Cyprus*, about three hundred weight and upwards, for Tare 16 pound.

—downwards to two hundred weight, 14 pound.

—from two hundred weight downwards, 12 pound.

In Bales of *Persia*, an hundred and a quarter, 20 pound.

Smalts,

Smalts, or Powder blew in Casks, for Tare 10 pound *per Cent.*
 Sope { called Castile Sope in double Serns, about three hundred weight,
 for Tare 30 pound.
 —in single Serns the same weight, 16 pound.
 —in Chests, about two hundred and a half, or three hundred
 weight, 40 pound.
 Succads in Chests, about an hundred and an half, 40 pound.

T.

T Allow from *Russia* and *Ireland*, in Casks, for Tare 12 pound
per Cent.

Tazels, the half pack contains ten thousand.

Sifters Thread to have no allowance.

Thread called whited brown, Outnal, and black and brown, or
Bridges, to have allowance of 6 *per Cent.* for want of weight.

Spanish in Barrels, about two hundred and a quarter, for Tare
 28 pound.

—in Half-barrels, about an hundred and a quarter, 18 pound.

—in Potaccoes without Canvas, 14 pound.

—in Potaccoes covered with Canvas, 16 pound.

—in Potaccoes covered with Skins, 26 pound.

Virginia in Hogsheds, weighing under three hundred weight, for
 Tare 70 pound.

—from three hundred to four hundred, 80 pound.

—from four hundred to five hundred, 90 pound.

—five hundred weight and upwards, 100 pound.

Barbadoes in rolls upon sticks, about a quarter of an hundred,
 6 pound *per stick.*

Bermudaes in Chests, 20 pound *per Cent.*

—in Casks, about three hundred weight, Tare 60 pound; about
 two hundred and a half, downwards to two hundred, or one
 hundred and three quarters, 50 pound.

Turpentine in Casks, Tare a fifth part.

W.

W Ire of Lattin and Iron in Casks, for Tare 6 pound *per*
Cent.

called Reaver wooll, in Hogsheds and Brizles, for Tare 75 pound.

—in Crobies, Tare the cover, which is one third of the whole.

Cotton-wooll, for Tare 4 pound *per Cent.*

Spanish in Bales for Cloth, about two hundred, for Tare 28 pound.

Spanish in Bales for Felts, about two hundred and a quarter, for
 Tare 14 pound.

Sigovia Spanish for Felts, about two hundred, for Tare 15 pound.

Lamb's Eltridge, Polish, for Tare 4 pound *per Cent.*

Wormseeds in Bales with Felts from *Smyrna*, about three hundred and
 three quarters, Tare 24 pound.

—from *Aleppo* with Cotton-wooll, 24 Pound.

Y.

Y Arn called Cable-yarn in winch from *Russia*, for Tare 28
 pound.

Cotton-

Cotton-yarn in Bales from *India*, about three hundred and a half, for Tare 43 pound.

—in Bags from *Turky*, for Tare 5 pound *per Cent*.

Grogam and Mohair-yarn in Bales from *Alippo* with Cottonwooll, 28 pound Tare, and so downwards proportionably.

PARTITION III.

FROM what has been offered in the First and Second Parts of this Treatise, it is humbly conceiv'd the Duties payable Inwards, and Outwards, (or Coastwise, as to Coals, &c.) may be computed with Certainty, and without Difficulty, even by Persons of a very shallow Capacity, however, lest any should be mistaken in their Judgment, or guilty of an Escape, or wrong in their Operations, I have in this Partition not only furnished them with an Alphabetical Abstract or Table of the Rates of all Merchandizes, but also with the Total Net Amount of the several Duties payable upon all Goods whatsoever Imported, both Rated and Unrated, and of the Sums to be Drawn back upon Exportation of the same in Time, respectively, with proper References whereby to know the particular Branches which compose each Sum; together with a Table of the Net Duties payable upon certain Goods carried Coastwise, and upon all Goods whatsoever Exported.

For the better Understanding the Table *Inwards*, please to observe,

1. That the Words in *Italick* on the left hand Page, are either Goods paying Duties *ad Valorem*, or some Alterations or Additions made since the Rates were granted, *Anno 1660*.

2. That the Figures in the first Column on the right hand Page, are the Rates charg'd upon sundry Sorts of Goods Imported, from which the Net Duties are to be computed; (except Perry, Rape of Grapes, Syder, Syder Eager, Vinegar, and Wines, as in page 4.) All the rest are Goods paying the Subsidies *ad Valorem*, &c. as before.

3. That the Duties payable Inwards are calculated for Goods Imported by a *British* Merchant in a *British* Ship, for which Ready Money is paid, and all Discounts deducted; except in the case of *Currans*, *Iron*, and *Fish*, on which there being a different Duty payable, when Imported in a Foreign Bottom, or caught by Foreigners, I chose to add the Aliens Duty, or Petty-Custom to the same respectively; all the rest are computed, as aforesaid; and if to the Goods enumerated (page 8) when Imported in a Foreign Ship, or to any other Goods belonging to a Foreigner, be added the Aliens Duty charg'd in the following Abstract, you have the Net Duties to be paid or repaid in all Cases whatsoever.

4. That when two, three, or more Sums are Circumflexed together by a Brace to the right hand facing the Figures, it denotes, that all those Duties are payable upon the Goods to which the Circumflex belongs, or that the Goods have a Reference to some Duty at the Foot of the Brace; thus, Adzes for Coopers pay, partly by the Dozen, and partly by the Hundred weight; Skins, called Goats Skins, not Cordivant, pay by the Dozen, by the Value, and by the Weight; and Instruments for Barber Surgeons, besides the Duties respectively opposite to each Sort or Denomination, are further chargeable with another Duty by Weight according to the Metal whereof each of them are made, whether Steel or Iron.

5. Tha

5. That the Letters to the right hand, opposite to each sort of Goods, are References to a Table at the end of Goods **Inwards**, by which you see at a glance the particular Branches of which the several *Net Duties* consist, and will be a very great Direction to the Officers in their respective Computations.

6. That in the following Abstract of Goods, both **Inwards** and **Outwards**, such Duties are charg'd as would be payable by Law, if the Goods could be legally Imported or Exported, without any regard to Prohibitions, except in the case of *Fish Inwards*, Reference being pray'd respectively in all other cases to the **List of Prohibited Goods**, and to the **Index**, Part. IV.

7. And that the Sums to be paid, or repaid, consist of Pounds, Shillings, Pence, and 20th Parts of a Penny, whereof 5 make a Farthing, 10 a Half penny, and 15 Three Farthings.

The Duties are calculated so exactly, as not to differ from the most critical Calculation $\frac{1}{40}$ part of a Penny on any one Commodity, and will be of the greatest Use and Advantage, both to Officers of the Customs, and to Merchants, as well for their Information as for Proving and Examining all Entries of Goods whatsoever, by Multiplying the several Duties by the Quantity of the Goods.

In ranging the Goods both **Inwards** and **Outwards**, I have observed the Order in which they follow in the Old Book of Rates, so far as to keep always both to the same Letter, and General Head, under which they are to be found there; but have disposed the Goods under each Letter, and General Head more successively in the Course of the Alphabet, taking in likewise, in their Order, such Goods as have been since charg'd with new or further Duties, and some others paying Duties *ad Valorem*. And because several Sorts of Goods Rated are so disposed as not to be found readily by the Alphabet, you have a List of them, with Directions where to turn to, in order to find them, at the end of the **Abstract of Goods Inwards**.

An Abstract of the Net *Aliens Duty*, payable by Strangers upon *all Goods* Imported, and by *British*, upon the *following Goods*, when Imported in Foreign Bottoms, over and above what is payable for the same by *British*, in *British* built Ships.

PARTITION IV.

IN this Division being to give you a View of the Laws relating to the Customs, Navigation, and Trade, as they stand at present, to avoid repeating what occurs in the Three first Parts, I have in the course of the Alphabet intermixed proper References to the same, and thereby rendred this last Part a general Index to the whole.

For the better Understanding whereof, please to observe,

1. That to avoid Repetition I have seldom noted the same thing under any two Heads, and therefore at the Foot of most of them I refer to some Matter or Circumstance relative to the same, but more naturally couched under some other Head: Thus in *Ships*, you find Reference desired to *Apprentices*, *Cattle*, *Coals*, &c. to which if you turn, you will find something in each of them that respects or affects *Ships*.

2. That where under any Head a short black Score points or leads from the bound Line on the left side to any following Particulars, it denotes, that they all have a Relation to the said Head; but when the said black Stroke is yet shorter, and does not extend so far towards the left hand, as to reach the bound Line aforesaid, the Meaning is, that all the Particulars so pointed to, have respect to the Article immediately preceding, not to the general Head: Thus in *Ships*, you see the 3, 5, 9, 10, 11, 12 and 13th Articles respect the word *Ships*; but the 1st and 2d have Relation to *British Ships*, the 4th to *Scots Ships*, and the 6, 7, and 8th to *Foreign Ships*.

As there is nothing of so universal concern among the Laws which respect the Customs and Trade, or so frequently consulted, as the Prohibitions (especially by the Officers) here follows a List of all Goods Prohibited to be Imported or Exported, with Marks and Directions for finding what further Penalties or Disabilities the Importation or Exportation of any of them are attended with, beside Confiscation.

The

The Ports of Great Britain, with their Division into Members and Creeks.

W Herein is to be noted, That by Ports is to be understood only those Places to which the Officers of the Customs are appropriated, and which contain and include all the Privileges and Guidance of all the Members and Creeks thereunto allotted.

By Members is to be understood such Places where anciently a Custom-house hath been kept, and Officers or their Deputies attending, and are lawful places of Exportation or Importation.

By Creeks is to be understood such Places where commonly Officers are or have been placed by way of Prevention, not out of Duty or right of Attendance. And are not lawful Places of Exportation or Importation, without particular Licence or Sufferance from the Port or Member under which it is placed.

All which are branched out in the following Description, under the several Heads as they are now managed and supervised.

*The Names of the Lawful Keys, Wharfs, &c.
for Shipping and Landing of Goods in the
Port of London.*

IN pursuance of an Act of Parliament it is Ordained, That the Keys, Wharfs and Places hereafter named, and no others, be Assigned, Appointed, and Allowed by His Majesty to be lawful Keys, Wharfs, or Places for the Shipping, Lading, or Landing of Goods: That is to say,

Brewers Key. Chesters-Key. Galley-Key. Wooll-Dock.

Custom-house-Key. Stone-stairs on the West-side thereof, is declared not to be a Place for Shipping or Landing of Goods or Merchandize.

Porters-Key. Bear-Key.

Sabs-Dock, Excluding the Stairs there, which are declared no lawful Place for Shipping or Landing of Goods or Merchandize.

Wiggans-Key. Youngs-Key. Ralphs-Key.

Dice-Key. The Stairs there declared unlawful for Shipping or Landing of Goods or Merchandize.

Smarts-Key.

Somers-Key. The Stairs there declared no lawful Place for Shipping, or Landing of Goods or Merchandize.

Lyon-Key. Buttolph-Wharf. Hammons-Key.

Gaunts-Key. The Stairs on the East-side are declared unlawful for Shipping, Lading or Landing of Goods or Merchandize.

Cocks Key.

One other Place betwixt *Cocks-Key* and *Fresh-wharf*, called part of *Fresh-wharf*, the Stairs are declared unlawful for Shipping, or Landing of Goods or Merchandize.

Fresh-wharf.

Billinggate to be a common open place for the Landing or bringing in of Fish, Salt, Victual, or Fuel of all sorts, and all Native Materials for Building, and for Fruit (all manner of Grocery excepted) and for carrying out the same, and for no other Wares or Merchandize.

Bridge-house in *Southwark* may be allowed as a Place convenient for the landing of any kind of Corn, brought or provided for the provision or victualling of the City, and not upon any private or particular Persons account, and for no other Goods or Merchandize.

It may be lawful for any Person to ship or lade into any Ship or Vessel on the River of *Thames*, bound over Seas, and lying between *London* and *Woolwich*, any of the Goods or Merchandize hereafter mentioned, viz. Horses, Coals, Beer, ordinary Stones for building, Fish taken by any of His Majesties Subjects, Corn or Grain: Provided that the Custom and Duties of such Goods be duly paid, and Cocquets or other lawful Warrants passed for the same.

It may be lawful for any Person or Persons to unship and lay on Land Deal-boards, Balks, and all sorts of Mafts, and great Timber, at any place of the River of *Thames*, betwixt *Westminster* and *Limabouse-deck*: Provided the Owners of such Goods do first pay or compound for the Custom and other Duties, and declare the Place at which they will Land them, before they unship any of the Goods, to the Officers or Farmers of the Customs thereof for the time being, and receive Sufferance or Permission from them so to do; and that they unship none of the said Goods, but in the presence of a Waiter or Officer appointed thereunto; otherwise the said Goods to be liable to forfeiture according to Law.

To prevent all future Differences and Disputes touching the Extent and Limits of the Port of *London*, the said Port is declared to extend and be accounted from the Promontory or Point called the *North-foreland* in the Isle of *Thanet*, and from thence Northward in a supposed right Line to the opposite Promontory or Point called the *Naes*, beyond the *Gunfleet*, upon the Coast of *Essex*, and so continued Westward through the River of *Thames*, and the several Channells, Streams and Rivers falling into it, to *London Bridge*: Saving the usual and known Right, Liberty and Privilege to the Ports of *Sandwich* and *Ipswich*, and either of them, and the known Members thereof, and of the Customers, Comptrollers, Searchers, and their Deputies, of and within the said Ports of *Sandwich* and *Ipswich*, and the several Creeks, Harbours and Havens, to them or either of them respectively belonging, within the Counties of *Kent* or *Essex*. In *Rotulo Scaccarii*, 19 Car. 2.

Rules which may serve for the Ports in general.

WHEREAS some Societies and Companies of Merchants do trade in a joint Stock, and Enter the whole Lading and Cargo of a Ship Inwards, in one single Entry, when the Adventurers therein concerned are many, the Officers and Waiters may take and receive such Gratuity as the said Company shall hereafter voluntarily consent to pay unto them; any thing in this Order or Table of Fees, or any other Act or Provision to the contrary notwithstanding.

All Goods under the value of Five pound in the Book of Rates, paying Subsidy the Sum of Five shillings, or less, shall pass without payment of any Fees.

No *English* Merchant that shall have Goods of his own, to be landed out of one Ship or Vessel at one time (although the Receipt of the Subsidy be distributed into several Offices) shall be charged to pay any more or other Fees than for a single Entry.

Goods in Partnership to pass as if the Proprietors were one single Person.

Fish by *English*, in *English* Shipping or Vessel, Inwards or Outwards, or alongst the Coast, to pay no Fees.

Foreign Coin and Bullion Inwards may be landed by any Person without Warrant or Fee.

Diamonds, Precious Stones, Jewels and Pearls of all sorts, to pass Outwards without Warrant or Fee.

Post-Entries Inward to pass without Fee under Five shillings ; if above Five shillings, and under Forty shillings, then Six pence ; but if the Custom to be paid exceed Forty shillings, then it shall pay the full Fees as was paid for the first Warrant.

The Merchant shall pay for all Goods opening that shall be short Entred above Ten shillings Custom.

The Merchants shall pay for weighing of all Goods that shall be short Entred above Twenty shillings Custom.

The Merchant not to be at any Charge, if duly Entred.

Whereas by an Act of Parliament, Intituled, *An Act for Encouraging and Increasing of Shipping and Navigation*, there is granted unto the King's most Excellent Majesty sundry Duties upon Strangers Vessels, importing Commodities not of their growth, and thereby it is ordered, That such Shipping as pretend to enjoy the Privilege of *English* Shipping, must be manned accordingly, whereby there is a necessity of an Officer to be employed every Tide downwards towards *Gravesend*, to visit all Ships, whether they be manned according to the said Act, and to give Certificates for making of Foreign Ships free, and taking Bonds for such as go to the Plantations, for effecting of which business the following Fees are set and appointed by the Authority aforesaid, to be paid as well in all Out-Ports, as in the Port of *London*, and Creeks thereunto belonging, *viz.*

Parliament Assembled.

WHereas in and by an Act of this present Parliament, Intituled, *An Act for Confirming of Publick Acts*, an Act therein (Intituled, *A Subsidy Granted to the King of Tonnage and Poundage, and other Sums of Money payable upon Merchandize Exported and Imported*) was confirmed, by which Act so confirmed, It is (amongst other things) Enacted and Ordained, That during the Continuance of that Grant, where the Goods Exported or Imported amount to the Value of Five Pound or more, the Customers and Collectors, and all other His Majesties Officers in the severall Ports shall take and receive such Fees (and none other) as were taken in the Fourth Year of the late King *James*, until such time as the said Fees should be otherwise settled by Authority of Parliament.

And whereas also amongst the Rules, Orders and Directions annexed to the Book of Rates (Ratified and Confirmed by the aforesaid Act) It is Ordered and Directed, That for the avoiding of all Oppressions by any of the Officers of the Customs in any Port of this Kingdom, in Exacting unreasonable Fees from the Merchant, by reason of any Entries, or otherwise touching the Shipping or Unshipping of any Goods, Wares or Merchandize, It is Ordered, That no Officer, Clerk, or other belonging to any Custom-house whatsoever, shall Exact, Require, or Receive any other or greater Fee of any Merchant, or other whatsoever, than such as are or shall be Established by the Commons in Parliament assembled. And if any Officer or other shall Offend contrary to this Order, he shall forfeit his Office and Place, and be for ever after incapable of any Office in the Custom-house.

In Prosecution of which said severall Clauses in the Act and Book of Rates before mentioned, and for the settlement and certainty of all the aforesaid Fees, for satisfaction, as well of Merchants and others, as of the Officers, what Fees are to be paid and received for any Cause, Matter

Matter or Thing whatsoever, for or concerning the Importation or Exportation, Shipping, Landing, or Entring of any Ships, Goods, Wares or Merchandizes, of what nature, or in what kind soever : It is Ordered and Declared by the Commons in Parliament Assembled, That the severall and respective Fees and Allowances mentioned in a Schedule or Table of Fees, relating to the Port of *London*, and the Members and Creeks thereunto belonging (and none other) shall be paid to the Officers and others Employed, and to be Employed in and about His Majesties Customs in the Port aforesaid, and are by the Authority aforesaid settled and confirmed.

And be it further Ordered and Declared by the Authority aforesaid, That the Fees and Allowances hereby intended, are set down, mentioned, and expressed in a Schedule or Table of Fees, Intituled, *Fees and Allowances due and payable to the Officers of His Majesties Customs and Subsidies in the Port of London, and the Members and Creeks thereunto belonging*, and Subscribed with the Hand of Sir *Edward Turner* Knight, now Speaker of the House of Commons in Parliament Assembled, and every particular Clause therein mentioned and contained, shall be and remain as Effectual to all intents and purposes, as if the same were included and particularly expressed within the Body of this Order ; And in case any Merchant, Master of Ship or other Person or Persons whatsoever, shall refuse to pay all or any the Fees hereby Ordered or Intended, That in such case it shall and may be Lawful for all and every Officer and Officers to make Stay of every Bill of Entry, Cocquet, or other Warrant that shall be tendred or given in for passing of any Ships, Goods or Merchandizes whatsoever, exceeding the Value of Five Pounds in the Book of Rates, for which the Fees shall be detained and denied to be paid, as aforesaid.

And be it further Ordered and Ordained, That Copies or Transcripts of this Order and Table of Fees shall be made and set up in publick View, in the Custom-house in *London*, and in all other Offices and Places where the said Fees, or any of them, are to be paid or received.

APPEN-

APPENDIX.

THIS Treatise having been at the Press at the beginning of the last Session of Parliament, the Duties on *French* Goods and Unrated *East India* Goods (in which 'twas Expected there would have been considerable Alterations) were reserv'd for an Appendix, to which the Alterations made, and the New Duties granted to the End of that Session, are likewise subjoyn'd.

French Goods.

IN Computing the Duties on *French* Goods, as the Laws now stand, this is a general Rule to be Observ'd, That the Subsidies and other Duties (except the Impost 1690. and 169 $\frac{1}{2}$.) are to be Charg'd according to the respective Rates or Values on the same sorts of Goods coming from any other Places of *Europe*, But (instead of the Imposts 1690 and 169 $\frac{1}{2}$. if the said Goods be Chargeable with either of them, or whether they be or not) all *French* Goods (except *Brandy*, *Salt*, *Vinegar*, and *Wine*) are to pay *l. 25 per Cent.* for Impost 169 $\frac{1}{2}$. according to the respective Rates Part. III. or Values upon Oath, as in Page 23. and likewise another *l. 25 per Cent.* till 28 Feb. 1717. and thence to the End of the next Session of Parliament, as in Page 30.

The manner of working those Duties being fully demonstrated Part I. and II. an Example is needless: But here follows a Table of the Rates and Duties payable to that time, on certain Goods which for the Reasons aforesaid were not inserted in Part III. And for all other *French* Goods both Rated and Unrated, the Duties are the same with those on the like Species of Goods in that Partition, except only as abovementioned.

Note, *Wines Imported in Foreign Bottoms by British, pay Strangers Duty, as in Page (8 & 11)*

In this last Table, and likewise in that Page (49) the Duties are Calculated for Practice, and consequently not reduc'd below a Farthing, being the lowest Piece of Coin current in England.

East India Goods.

OF these some are Rated, and pay the Duties certain, some are Unrated and pay the Duties *ad Valorem*, and some are partly Rated, and partly Unrated.

Rated East-India Goods are to be Computed, as the like Goods coming from any other Place (regard being had to the 20 *per Cent.* for Impost 1690, as in Page 19 and 20.) But by the 10 *A. c.* 29. the Company have the Privilege of Landing such Goods (and Coffee likewise) by Bills at Sight, giving Bond for Payment of the Duties at $\frac{1}{2}$ Months (that is at 2 Sales or Terms of Payment, whereof the first is payable at 6 Months, the other at 12) from the time in which the Master of the Ship Reports, or ought to have Reported his Vessel, with the same Deductions and Allowances which are to be made to other Merchants, when the Duties are paid down before Landing. Examples therefore seem needless, Reference being pray'd to *Part. I. and II.*

Goods Unrated paying Duties *ad valorem* (except *Coffee*, which pays the *uncertain* Duties according to the Oath of the Importer, and also except *Tea, Muslins, White Callicoes, Dimities, and other Manufactures of Cotton*, which pay some Duties *ad valorem* under special Regulations) are Computed according to the Gross Price at the Candle, after Deduction of the Allowances directed to be made by 2 and 3 *A. c.* 9. § 7. and Bond is taken accordingly upon Landing. Which Clause runs in these Words.

‘ And it is hereby Enacted and Declared, That the Value of such Goods, according to which the said Duties are to be paid (except Coffee, as aforesaid) shall be reckoned according to the Gross Price at which such Goods shall be sold, making such Allowances *only* out of the same, as are hereafter mentioned (that is to say) It is hereby Enacted, That out of the Value of the said Goods so to be ascertained by the Price at the Candle, as aforesaid, there shall be a Deduction and Allowance made of *so much as the Net Duties payable* to Her Majesty for the same Goods respectively do amount unto, (except the Duty of Five Pounds *per Centum* payable to the Queen for the use of the said Company) and so much as the respective Companies or Traders aforesaid. shall *bona fide*, allow for Prompt Payment to the Persons who at such Sale shall buy the said Goods at Time: And also upon the whole Values of the said Goods so to be Ascertained by the Price at the Candle, there shall be Deducted and Allow'd Six Pounds for every Hundred Pounds to the said Companies and Traders respectively, for their Charges in keeping the said Goods from the time such Goods are Imported, till the Sale by the Candle: And in that Proportion for a greater or lesser Quantity.

Note, *The Allowance made by the Company to the Buyers for Prompt Payment, is usually 6 and $\frac{1}{2}$ per Centum.*

The Method that has been practised in Calculating the Duties on such Unrated Goods, is according to the following Examples.

From these Two Examples 'tis obvious there is a greater Allowance given out of the Gross Price at the Candle, for the Duties, than really they come to; For in the First there is l. 52. 2. 6. and in the Second, l. 80. 4. deducted for Duties; whereas the *Net Duties payable* (the Words of the Act) in those Examples are but l. 18. 8. 9 $\frac{3}{4}$. in the one, and l. 49. 12. 3. in the other; And from this way of Computing, it follows, That the more Impositions

ons are granted upon such Goods, the less will accrue to Her Majesty, as will appear demonstrably by repeating those Two Examples, and supposing a further Duty charged on each of 44 per Cent. according to the gross Price at the Candle.

So

So that if such a further Duty were to be laid on *China Ware*, the Queen, instead of gaining by it, would be a considerable loser : for

The Duties on *China Ware* formerly came to — *l.* 18. 8. 9 $\frac{3}{4}$
And by a further Duty of 24 *per Cent.* reduced to — 8. 13. 2

And upon Arrack the granting a New Duty of *l.* 24 *per Cent.* would not only deprive Her Majesty of the designed Increase of Her Revenue, but likewise of Five other entire Duties payable by former Acts.

To Rectify which, and that both the Queen and Company may have Justice, the following Method of Calculating the Duties on *East India Goods* Unrated has been propos'd, as more agreeable both to the Intent and Letter of the Law, than the former.

				Duties Uncertain — 9. 19. 11 $\frac{3}{4}$	
l. 57. 3. 11 $\frac{3}{4}$		Duties Net.		Gross Price — l. 100. — —	

From these Two Examples it may be observ'd, That the Net Duties *uncertain*, arising from the Price at the Candle, are found by Proportioning the *Net Value* to the *Gross Value and Duties*; For in the Example of *China Ware*, That Parcel which without regard to the Duties was worth — — — — — l. 100 — —

Being chargeable with the Gross Duties amounting to — 52 2 6

The Value of the Goods is advanc'd to — — — — — l. 152 2 6

And consequently the same Proportion that the *Gross Value* holds to the *Gross Duties*, the *Net Value* must to the *Net Duties*; The Truth of which Operation is evident, Because if from the *Net Value* you deduct the Sum discover'd for the Total Amount of the *Net Duties uncertain* or *ad Valorem*, the Remainder is the *Reduc'd Value*, or such a Sum as will produce the particular Duties of which that Total consists; For further Proof, add together the *Reduc'd Value*, *Net Duties*, and *Charges, &c.* allow'd to the Company, and it will yield the *Gross Price* at the Candle.

In the First Example, the Company have an Allowance of the 12 and $\frac{1}{2}$ per Cent. out of the Gross Price, and from the Remaining $l. 87. 10.$ — an Abatement of the *Duties paid*, being $l. 29. 10. 7\frac{1}{2}$: In the Second, they have likewise a Deduction of the 12 and $\frac{1}{2}$ per Cent. and of the *Duties Certain*, and from the Remaining $l. 40. 6.$ — a further Allowance of the *other Duties payable*, being $l. 9. 10. 11\frac{3}{4}$.

But the Advantage arising to the Revenue by this way of calculating the Duties, will further appear by working the Two Examples with the supposed Additional Duty of *l.* 24. -- upon every *l.* 100. -- Value, according to the Gross Price at the Candle, after this Method, as was done before the other way.

NB. That the 15 per Cent. page 26. is not subject to the Allowances by 2 & 3 A. c. 9. and so cannot be reduced.

That East India Goods Unrated, if they be Manufactured, pay 20 per Cent. for Imposit 1690. as in page (20.) But if they be not Manufactured, they pay only 5 per Cent. for Imposit. 1693. as in page (24.)

That by the Numbers are meant the Branches of the Revenue or Duties, as they stand Numbred in page (1 & 2.) except N^o 28. by which is meant the Additional Duty, as in page. (195.) And

That the Duties uncertain, according to the New Method of Computing them, vary as often as the Total amount of the Certain or Fix'd Duties alters; for as that amount (as well as the 12 and $\frac{1}{2}$ per Cent.) is to be deducted from the Gross Price at the Candle, the Reduc'd Value or remaining Sum, from which the Uncertain Duties are to be Calculated, must vary accordingly.

From

From the preceding Examples it is presum'd, the Duties of any Goods coming from the *East Indies* may be readily Computed; but for your further Direction as to Unrated Goods, and because the Company dispute the Payment according to the New Method, here follows

Tobacco Imported from 1 June, 1714. for 5 Years, and thence to the End of next Session of Parliament, an Allowance to be made at Importation of *l. 8. per Cent.* out of all the Duties, instead of the *l. 8* and *4 per Cent.* formerly allow'd out of the Impost only, (*as in page 16 and 17.*) and is not to be deducted from the Merchants on Exportation—

—of the *English* Plantations, the Additional Duty of *1 d. per lb.* (*pag. 9.*) The New Subsidy of *1 d. per lb.* (*page 12*); the $\frac{1}{3}$ Subsidy, (*page 13*); and the Impost of *3 d. per lb.* and likewise the Impost Duty of *6 d. per lb.* on Tobacco of Foreign Plantations, (*page 16*); instead of the former Terms of Payment, shall be payable at 18 Months from the Merchants Entry, or from the End of 30 Days from the Masters Report, which shall first happen, and the Bonds to be taken accordingly—

—The said several Duties may be in one or more Bond or Bonds at the Election of the Importer or Proprietor—

—Upon payment of the said Duties upon Entry thereof, or at any time within 15 Months from the Date of the Bonds, The Importer or Proprietor shall, in lieu of all former Discounts for Prompt Payment out of all the said Duties, have an Allowance of *l. 10. per Cent. per Ann.* for the said 15 Months, and so proportionably for so many of the 15 Months as then remain unexpired—

—No Allowance for Prompt-Payment after 15 Months, nor for less than a Month—

—Nothing in this Act is intended to take away the Allowance of *8 per Cent.* out of the several Duties for Waste and Shrinkage, nor the Allowance of 5 in the Hundred out of the several Subsidies and Additional Duty by Virtue of the Act of Tonnage and Poundage and other Acts—

—Of the *English* Plantations (upon Payment of the *1 d. per lb.* for Old Subsidy as in *page 5.*) may be Lodged and Put into Warehouses (to be provided at the Merchants Charge, and approv'd by the Commissioners of the Customs) upon the Merchant's giving his own Bond for Payment of the Duties within 15 Months—

	Cap.	Sect.
tation of such Tobacco, or Payment of the Duties, the Tobacco so remaining in the Warehouse for want of the Payment of the Duties, to be Sold publicly by Inch of Cand'e, by the Commissioners or Principal Officers of the Customs, giving the Proprietor 14 Days previous Notice, and the Product to be applied to the Payment of the Duties and Charges, and the Overplus, if any, rendred to the Proprietor—	8	5
Tobacco of the <i>English</i> Plantations, burnt in the Warehouses, Duties paid to be allow'd to the Owners, and the Bond for so much Discharg'd—	—	6
—Imported before the 25 <i>June</i> 1714. and not Entred, to be reckoned as Imported after 2 <i>June</i> , 1714. and to have all the Privileges of this Act—	—	7
—Of any Sort, Corrupt or Unmerchantable, to have no Allowance, but on the Merchants refusing to Enter, and Pay, or Secure the whole Duties for the same, to be Weigh'd by the Principal Officers, and publicly Burnt or Destroy'd, and the Owner discharg'd from paying Duty for the same—	—	8
—In consideration of Freight, Charges, and Defacing the Remainder, the Owner to be allow'd 25 lb Tobacco Duty-free, for every 100 lb Burnt or Destroy'd, by Certificate which is to be made out, pass'd and paid, without Fee, and the Tobacco therein mentioned not to be placed to the Merchants Export Account, so as such Allowance of 25 lb. <i>per</i> 100 lb. of Damag'd Tobacco does not exceed 150 lb. upon any Hogshead of <i>Aranoco</i> Tobacco, or 200 lb. upon any Hogshead of Sweet-scented Tobacco —	—	9
—Nothing herein to hinder the Merchants having an Allowance for Damaged Tobacco as usual, so as such Allowance doth not exceed 40 lb. of Tobacco upon any one Hogshead; such small Damages to be view'd and allow'd at the Scale —	—	10
—Several Parcels Exported from <i>Scotland</i> between 27 <i>March</i> , 1710. and 16 <i>April</i> following, Debentures to be made out and allowed for the same, as if Exported before that time —	—	12

Hence it follows, That instead of the Methods of Computation prescrib'd Page 5, 10, 12, 13, 16, 17, 18 and 36. the Duties on Tobacco are to be Calculated according to the following Examples and Directions till 1 June 1719. and thence to the End of the next Session of Parliament.

Secured	23	19	1 $\frac{1}{2}$
In ready Money, Old Subsidy	4	7	4 $\frac{1}{2}$
Total	28	7	3 $\frac{1}{2}$

For working the Discounts vide page 51 & 52.

Note, The Discount for Prompt-Payment is 10 per Cent. per Ann. and so proportionably, which for 15 Months is 12 and $\frac{1}{2}$ per Cent. and consequently if the Duties be Bonded you must take a certain Proportion only of the 12 and $\frac{1}{2}$ per Cent. according to the Number of Months of the 15 that remain unexpired at the Time of Payment.

The Duties on Tobacco of Foreign Plantations are still to be Computed as in Page 56; only in lieu of the former Allowances made on the Impost of such Tobacco, there is now to be allow'd 8 per Cent. for Shrinkage, and 12 and $\frac{1}{2}$ per Cent. for Prompt-payment out of the said Impost Duty alone.

NB. Tobacco of the English Plantations only, has the Privilege of being Secured in Warehouses, &c.

To Conclude,

YOU have a View of the several Branches of the Revenue, with their respective Continuations, &c. in the First Part.

The Varieties in Computing the Duties may be Observ'd in the Tables, Page 49, 50, 56, 191, 193, 194, 195, 306, 308, 309. and in the Examples occasionally dispers'd through the First and Second Parts and Appendix.

In the Third Part you have the Rates and Duties to be Paid or Drawn back at a Glance, with References respectively directing how to Compute them.

In the Index and Appendix the Laws and other principal Matters in the Book, are Abstracted under proper Heads.

Throughout the Whole you have the necessary Rules, Directions, and Schemes, for Practice.

And 'tis hop'd upon Perusal, it will be found fully to answer the Title Page, and to be Serviceable to all concern'd in the Customs or Trade.
